Job Summary

Telework available and negotiated at the time of hire.

This position is responsible for leading the design and support of Prism, enterprise replicated data, and related data solutions databases used for the ERP decision support by faculty and staff within Minnesota State College and Universities. Areas of responsibility include ingestion of data, extraction, and transformation; logical and physical database design, development, maintenance, and interaction with operating system(s). The incumbent for this position develops and supports Prism, the enterprise replicated data and related data solutions databases and/or data stores, and related software products. Plans the evolution of software, and assure its optimal use. The position is responsible for implementing the operational security of data within Prism, the enterprise replicated data and related data solutions databases and/or data stores, and related software products. Project management responsibilities are included for planning, installation, security, performance, maintenance and

documentation. Performance tuning and mentorship of team members are also key to this position.

Minimum Qualifications

Resume must reflect all minimum qualifications. Please enter your experience in chronological order, including the month and year of employment.

- Six years of database administration experience supporting large scale data stores and/or database environment
- Knowledge and experience working with Prism, enterprise replicated data and related data solutions; databases and/or data stores sufficient to support an ERP and business intelligence, reporting, analytics, and citizen data scientists.
- Ability to mitigate risk and understand the ramifications and impact that decisions have at a systems level; manage time and resources and effectively; and balance multiple, competing priorities
- Demonstrated ability to work cooperatively and collaboratively on large/complex system deployment projects in a team environment
- Effective written and verbal communication skills sufficient to explain and document complex processes and procedures

Preferred Qualifications

- Proven track record of deploying highly available services for large organizations
- Previous experience with system administration and a thorough understanding of storage, network and virtual technology
- Knowledge of and experience with project management methodologies and best practices
- Bachelor's degree in Computer Science or a related field or a related field or a combination of equivalent education and experience

Additional Requirements

The successful candidate must submit to a background investigation prior to employment.

The background check may consist of the following components:

- SEMA4 Records Check (applies to current and past employees only)
- Criminal History Check
- Employment Reference Check

- Social Security and Address Verification
- Education Verification

In accordance with the Minnesota State Colleges & Universities (Minnesota State) Vehicle Fleet Safety Program, employees driving on college/university business who use a rental or state vehicle shall be required to conform to Minnesota State's Vehicle use criteria and consent to Motor Vehicle Records check.
