

# Labor Market Service

Help potential students understand their career options.

A free service to embed career and labor market information directly on your college or university program websites. Students will see up-to-date information on wages, employer demand, education, related occupations and more without ever leaving your college or university website.

This is an automated service from CAREERwise Education and the Workforce Development staff in Academic and Student Affairs. Help your students make informed career and education decisions!

## Integration Options

A. Embed 'quick facts' directly onto your program page. Give students a preview of wages and potential careers. Show the demand for each career as well as the projected number of total openings.

B. Add a link to your program page that allows students to open a window to preview wages and potential occupations. Show the employment demand for each occupation as well as the projected number of total openings.

With both options, students are able to navigate to a mini-occupation profile that allows them to find detailed data about the occupation.

[Auto Body Repair - Diploma](#)

### Recent Wages

1 Year After Award: \$15.31 (Median Hourly)

[About Recent Wages](#) ▼

### Potential Occupations

The occupations listed below may be of interest to someone who has completed this program. If you're considering enrolling at a two-year college with the intention to transfer to a four-year university, it is important to know which degree path is right for you, and to talk with an advisor about how to make your path as smooth as possible. **Associate degree programs vary in transferability.** [more](#)

## The Data

### Education and Training

Learn about the education and training requirements for an occupation.

- Typical entry-level education required for an occupation
- Graph showing percent of workers that attain each award level
- Work experience and training requirements

### Wages

Explore wages from multiple perspectives.

- Find recent wages for program graduates
- Learn about typical wages in the occupation, including regional wage information

### Employment and Employment Outlook

Find out about the current and future demand for an occupation

- Coming soon: See jobs, top employers, top certifications, and top skills through a new integration with CEB TalentNeuron
- Find out the industries where people in the occupation most often are employed
- See the number of openings projected in the next ten years
- Learn if the job is in demand
- Find out how many people are employed in Minnesota and in each Minnesota region.

## What to Expect

### Consultation

Our team will meet with you to discuss your website and the best integration options for you.

### Customization

Our programmer will make any customizations needed to ensure the service can be integrated into your website.

### Support

Our staff will work with your staff to make sure you can successfully integrate the service into your site.

We'll be available to help with questions for as long as you're using the service.

## Contact Information

Contact us to learn more about how to offer this service to your students.
