

# Connect Your iPhone to Office 365

Now: Configure Your iPhone to Access Your Office 365 Outlook Account

## Use [Outlook for iOS App](#)

**Note** *Outlook for iOS requires iOS 8.0 or higher*

The Outlook app is the recommended way to use Office 365 on your iOS device. Unlike the native email and calendar clients on your device, the Outlook app is fully supported by Microsoft.

Download the Outlook for iOS app from the App Store.

1. Once you have installed the Outlook app, open it
2. Tap Add an Account
3. Tap Office 365

# Configure Your Apple Device to Access Your Office 365 Outlook Account

## Cont. [Outlook for iOS App](#)

### Note

1. Enter your Unified MnSCU username –  
`StarID@mnsu.edu` -- NOT your email address!
2. Enter your StarID password and Done
3. Tap Sign in
