Section I. General Information

Background

Minnesota State Colleges and Universities is the fifth-largest system of higher education in the United States. It is comprised of 37 two-year and four-year state colleges and universities with 54 campuses located in 47 Minnesota communities. The System serves approximately 430,000 students each year. The Minnesota State Colleges and Universities is an independent state entity that is governed by a 15-member Board of Trustees. The law creating the system was passed by the Minnesota Legislature in 1991 and went into effect July 1, 1995. The law merged the state's community colleges, technical colleges and state universities into one system, other than the University of Minnesota campuses. For more information about Minnesota State Colleges and Universities, please view its website at www.mnscu.edu.

Dakota County Technical College endeavors to serve students within nearby communities, as well as those coming from countries around the world. The majority of students work toward degrees and diplomas in a variety of programs to prepare them for employment. However, the college is also proud of its general education department, whose courses are part of the Minnesota Transfer Curriculum. As members of a student-centered organization, all employees, faculty members and administrators are focused on ways to continuously improve student learning within the college's mission. Along the way, DCTC has become a leader in delivering sustainable technologies, service-learning opportunities, and community engagement into the curricula of most programs. DCTC offers varsity competition in the following sports: Men's Baseball, Basketball, and Soccer, and Women's Soccer, Softball, and Volleyball and is a member of the National Junior College Athletic Association (NJCAA).

The responder agrees that, if after award, an organizational conflict of interest is discovered, an immediate and full disclosure in writing must be made to the respective school's chief financial officer or the System Office's Business Manager that must include a description of the action which the vendor has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the school or System Office may, at its discretion, cancel the contract. In the event the responder was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to the contracting officer, the school or System Office may terminate the contract for default. The provisions of this clause must be included in all subcontracts for work to be performed similar to the service provided by the prime contractor, and the terms "contract," "contractor," and "contracting officer" modified appropriately to preserve Minnesota State's rights.

Physical and Data Security

The vendor is required to recognize that on the performance of the contract the vendor will become a holder of and have access to private data on individuals and nonpublic data as defined in the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13; and other applicable laws.

In performance of the contract, the vendor agrees it will comply with all applicable state, federal and local laws and regulations, including but not limited to the laws under Minnesota Statute Chapters 13 relating to confidentiality of information received as a result of the contract. The vendor agrees that it, its officers, employees and agents will be bound by the above confidentiality laws and that it will establish procedures for safeguarding the information.

The vendor agrees to notify its officers, employees and agents of the requirements of confidentiality and of the possible penalties imposed by violation of these laws. The vendor agrees that neither it, nor its officers, employees or agents will disclose or make public any information received by the vendor on behalf of Minnesota State and Dakota County Technical College.

The vendor shall recognize Minnesota State's sole and exclusive right to control the use of this information. The vendor further agrees it shall make no use of any of the described information, for either internal or external purposes, other than that which is directly related to the performance of the contract.
