

Board Policy 2.1 Campus Student Associations

Part 1. Establishment and Recognition

Students at each college and university have the right to establish a student government herein referred to as a campus student association. Students establishing a campus student association shall develop a constitution for the association. Only currently enrolled students are eligible to serve as student representatives or officers. The college or university shall recognize the campus student association as the official representative of the students, upon receipt of evidence that the student body has approved the constitution. Colleges and universities that have multiple campuses shall develop policies and procedures to assure representation and participation in a campus student association by students at their constituent campuses.

Part 2. Duties

In addition to the duties in college, university, and Board of Trustees policies and in the campus student association constitution, the campus student association has the sole authority to recommend the chartering of student clubs and organizations for approval by the college or university president.

Part 3. Appeal

The college or university grievance policy must be used to appeal a campus student association decision relative to chartering, funding, or providing service to student organizations that may violate the law, or a policy or procedure of the college, university, or Minnesota State.
