

Consortium Performance Report Perkins V Consortium: True North Stars January 23, 2024

In effect Grant Year 3 (2023), East Range, Hibbing/Chisholm, and Itasca County consortia merged into the True North Stars Consortium. This report contains individual consortium SDPLs and data for Grant Years 1 (2021) and 2 (2022) and merged True North Stars SDPLs and data beginning in Grant Year 3 (2023).

The following report displays your consortium's:

- current established performance levels (i.e., targets) for the four Perkins V grant years (Table 1, column **SDPL**),
- actual performance on the seven secondary core indicators and three postsecondary core indicators (Table 1, column **Actual Perf %**),
- indication that an improvement plan is required based upon performance (Table 1, column **IP Req?**), and
- total number of secondary and postsecondary participants and concentrators (Table 2).

Table 1 provides a summary of your established goals for future performance on your Perkins V secondary and postsecondary performance indicators, as well as your actual performance (where available) on those indicators each grant year, including the baseline year.

This report provides an official indication of whether your consortium is required to complete an Improvement Plan (IP) for any of the core indicators for each grant year. Consortia are required to submit an improvement plan for any core indicator where actual performance is less than 90% of the established performance level for that indicator.

Updates to this document will be made at least annually to update annual actual performance rates. Updates will also be made if there are adjustments to state determined performance levels. Updates made and corresponding dates are included in a note at the end of the document.

Consortium Performance Report
Perkins V Consortium: True North Stars
July 26, 2023

The table below displays the State Determined Performance Level (column **SDPL**), actual performance percentage (**Actual Perf %**), and an indication of whether an Improvement Plan (IP) is required (**IP Req?**) for every accountability indicator each grant year. The year shown following the Grant Year label indicates the reporting year of the data in alignment with the corresponding federal CAR (Consolidated Annual Report) grant year. For secondary indicators, reporting years align with school years (e.g. 2021 reflects school year 2020-21), with the exception of 1S1 and 3S1 which both lag by one year (e.g. students who graduated, enrolled in postsecondary and/or joined the workforce in school year 2019-20 are displayed in 2021 data). For postsecondary indicators 2P1 and 3P1, reporting years reflect the last year of the three-year cohort reported (e.g. reporting year 2021 reports on cohort 2019-2021). For postsecondary indicator 1P1, the cohort reporting lags by one year (e.g. reporting year 2021 reflects data from cohort 2018-2020).

If actual performance rate on an indicator falls below 90% of the established performance level for the indicator/grant reporting year, an **improvement plan (IP)** is required.

*Due to the COVID-19 peacetime emergency, MCA (Minnesota Comprehensive Assessment) testing was canceled, therefore, no Reading or Mathematics academic achievement data are available to report for SY2019-20. Across SY2020-21 secondary districts shifted from remote to in-person learning at different times and lengths of time.

**The grade in which the Science assessment is offered to students in MN depends upon when students complete the Life Sciences requirements during high school. The timing of this course can vary from one school year to the next and from one district to another. Therefore, while MN reports the Science data to OCTAE, we are not required to set SDPLs for this performance indicator. Data for the Science assessment was not available until SY2022-23.
