

Perkins V Local Application

Strengthening Career and Technical Education for the 21st Century (Perkins V)

Award Period:	July 1, 2025 – June 30, 2026 (FY26)
Consortium Name:	South Central
Total Award Budget:	\$652,352.37

Consortium Membership List

In the following table, list the college(s) and all secondary school districts and charter schools in your consortium. Please use the full, legal name for each entity.

ISD242 Alden-Conger Public Schools	ISD507 Nicollet Public Schools
ISD2860 Blue Earth Area Public Schools	ISD2168 New Richland-Hartland-Ellendale-
	Geneva Public Schools
ISD836 Butterfield Odin Public Schools	ISD6049 Riverbend Education District
ISD391 Cleveland Public Schools	ISD84 Sleepy Eye Public Schools
ISD656 Faribault Public Schools	ISD75 St. Clair Public Schools
ISD2835 Janesville-Waldorf-Pemberton Public	ISD840 St. James Public Schools
Schools	
ISD2071 Lake Crystal Wellcome Memorial Public	ISD508 St. Peter Public Schools
Schools	
ISD2397 LeSueur-Henderson Public Schools	ISD2905 Tri-City United Public Schools
ISD837 Madelia Public Schools	ISD2134 United South Central Public Schools
ISD77 Mankato Area Public Schools	ISD829 Waseca Public Schools
ISD2135 Maple River Public Schools	ISD2143 Waterville-Elysian-Morristown Public
	Schools
ISD763 Medford Public Schools	South Central College
ISD6027 Minnesota Valley Education District	
ISD88 New Ulm Public Schools	

Narrative 1: Comprehensive Local Needs Assessment (CLNA)

Submit a completed *Comprehensive Local Needs Assessment (CLNA) Results and Priorities* document with your application materials.

Narrative 2: Programs of Study (POS)

Submit a completed Programs of Study Spreadsheet (*S-R POS – Funding POS*) with your application materials.

Complete the table below for each State-recognized POS and any POS that are being funded. Funded POS must meet two of the three categories (high wage, high skill, in demand). Delete the example entries and insert additional rows as needed.

POS	Туре	High Wage Y/N	High Skill Y/N	In Demand Y/N	Prior Year's # of Secondary Concentrators	Prior Year's # of Postsecondary Concentrators
Health Science	Both	Υ	Υ	Υ	419	128
Business Management & Administration: Finance	Both	Y	Y	Y	1774	71
Agriculture, Food, and Natural Resources	Both	Y	Y	Y	2253	31
Manufacturing	Both	Υ	Υ	Υ	1175	81
Human Services: Education & Training	Both	N	Y	Y	1907	50
Business Management & Administration: Hospitality & Tourism	Both	N	Y	Y	1774	13

Version: 2-5-2024 Page 2 of 35

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Programs of Study**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This	Need is	s in Ele	ment(s):			
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2 🗆	3⊠	4□	5 🗆			
Expand CTE exploration and course options in our rural districts. Our CLNA results show rural districts are requesting expanded CTE exploration and course options to address key challenges in career preparation. These districts face significant barriers including low enrollment that prevents new program implementation, limited specialized staff to support career exploration, and insufficient local employer partnerships for work-based learning opportunities.								
2. Strategies to address need:								
Strategy 1: Provide support to rural districts for localized career exploration.								
Strategy 2: Better communicate through a community of practice strategies for career exploration. **A career exploration activity is a process where individuals learn about different jobs and careers to discover what might be a good fit for them based on their interests, skills and values. It involves researching careers, gaining work experience, and developing a plan for future career goals. Strategy 3: Continue to collaborate and communicate the Academy programming available to all districts.								
3. Measurable Outcomes (report results in next APR):								
Outcomes for Strategy 1:								
 Increase in rural student participation in career exploration activities by 25% within 80% of rural districts implementing at least two new career exploration programs needs 			cal wo	r <mark>kforce</mark>				
 Documented partnerships between 90% of rural schools and at least five local bus Future Forward 	<mark>sinesse</mark>	<mark>s/emp</mark>	<mark>loyers 1</mark>	<mark>through</mark>	n 1			
Outcomes for Strategy 2:								
 Establishment of a functioning community of practice with representatives from 5 	50% of	district	t <mark>s</mark>					
 Quarterly sharing of best practices with documented implementation of at least to 	wo sha	red str	ategies	5				
 85% of participating educators reporting improved knowledge of career exploration Creation of a google shared drive with at least 50 high-quality career exploration reporting 								
Outcomes for Strategy 3:								

Version: 2-5-2024 Page 3 of 35

25% increase in district participation in Academy programs

NEED B:	This Need is in Element(s):):		
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2 🗆	3⊠	4□	5 🗆		
Strengthen and expand industry partnerships that will support CTE programming. According to our CLNA, our districts are reporting barriers to connecting with local industry partners. They are asking for help in making connections that are meaningful to the students and employers.							
2. Strategies to address need:							
Strategy 1: Develop a structured industry partnership program with tiered engagement opportunities							
 Create multiple entry points for business participation (guest speakers, workplac curriculum advisors, internship providers) 	<mark>e tours</mark>	<mark>, equip</mark> i	<mark>ment d</mark>	<mark>onatior</mark>	<mark>IS,</mark>		
 Maintain our regional Workforce Development Coordinator roles to build and stream communities 	engthe	<mark>en relat</mark> i	<mark>ionship</mark>	s in loc	al		
Strategy 2: Create data-driven alignment between CTE curriculum and current industry n	<mark>eeds</mark>						
 Conduct biannual skills gap analysis with regional employers through our prograte Develop joint professional development opportunities for CTE instructors at indu Establish equipment and technology sharing agreements Enhance stackable credentials embedded within CTE programs 			<mark>ries</mark>				
3. Measurable Outcomes (report results in next APR):							
Outcomes for Strategy 1:							
 Increase total number of active industry partners by 40% Achieve 90% retention rate of existing industry partners 25% increase in industry-sponsored student internship/work experience opportu 	ınities						
Outcomes for Strategy 2:							
 80% of CTE pathways aligned with documented regional workforce needs (DEED MnState, RealTime Talent) 50% of CTE instructors participating in industry-based professional development 30% increase in students earning industry-recognized credentials 			ce boaı	rd, MDE	<u>.,</u>		

- 4. Provide additional narrative to address the following:
 - a. Identify any new courses, programs, or programs of study in development within your consortium. POS in development can be reported on the POS Funding Tab of the POS Spreadsheet but should not be listed as a State-recognized POS until all seven required elements are in place.

Version: 2-5-2024 Page 4 of 35

The Education Academy was announced in spring 2024 with a first semester of Fall 2024. This is a regional Academy model that was requested by our smaller districts who wanted to provide an opportunity for students to explore the teaching profession. The World of Teaching was successfully launched as a fall semester class with two districts, serving three students. The World of Teaching Advanced was offered spring semester with two districts, serving two students. More work will be done this summer to develop additional classes.

South Central College welcomed its first cohort of 8 students into its new Surgical Technology program. This program was established as a result of industry collaboration to support a gap in training opportunities throughout Southern Minnesota. Stackable credentials are currently in development as the college progresses towards establishment of a Sterile Processing Certificate, which will eventually be a required pre-requisite of the Surgical Technology program.

South Central College is in the initial stages of establishing an Electrical Technician program. This need was identified through communication from prospective students (via exploration events such as career fairs), SCC admissions staff, and conversation with industry partners and college staff/faculty. An environmental scan is currently in process where additional data will be identified to support the need. Funding to support the establishment of this program is identified within Narrative 11 (Reserve funding).

By addressing the unique needs of rural communities and fostering strong industry connections, the South Central consortium has established and maintained a responsive, future-ready CTE ecosystem that prepares all students for success in high-demand careers.

b. How will students, including members of special populations, learn about CTE course offerings and how do you ensure access?

Secondary and postsecondary will continue to collaborate and utilize resources to ensure that students who represent special populations have the opportunity to participate in career exploration activities and CTE dual enrollment courses/pathways. While the South Central consortium strives to integrate students who represent special populations into exploration activities with their peers, there are opportunities to host separate events for certain student populations who may be more positively impacted in a setting that is structured differently. For example, this spring the consortium hosted a series of CTE exploration events for high school students on the autism spectrum, where they can explore and participate in activities in smaller groups and with less noise and distractions around them. Improved communication strategies to parents/guardians is essential to ensure awareness of the CTE opportunities their children (including students who represent Special Populations) have access to. This enhanced communication should also help to eliminate any stigmas surrounding career and technical education and provide information that will help families make informed decisions that best meet the academic and career goals of their students. On the secondary side,

Version: 2-5-2024 Page 5 of 35

consortium leadership will also connect with area ALC and ALP's to help support their CTE course offerings and ALL counselors to help them continue to understand the importance of CTE programming and to promote in their district.

Seven Career Exploration for All events were held in Spring 2025. South Central College and six industry partners hosted 128 students from eleven regional school districts.

By streamlining communication about available Academy programming, we will ensure all districts, regardless of size or location, are fully aware of CTE opportunities. This ongoing collaboration and outreach will result in more informed decision-making at the district level and expanded student participation.

At the postsecondary level, marketing and communication strategies will continue to prioritize including students who represent special populations. A free, online application process, various CTE educational award and certification options, and numerous student support services are in place to ensure student success. Support services include tutoring, engagement with social workers, individualized advising, and external resources that support both the academic and personal needs of the individual. Many CTE programs offer both short-term certificates or diplomas and two-year degree options, meeting the needs of SCC's diverse student needs and goals.

The Career Navigator program provides the opportunity for over 3,000 9th grade students, at 29 schools within 23 districts, to actively engage with CTE faculty and various industry partners, learning/discovering about a large variety of career fields and educational options. This event takes place over 10 Fridays between the months of November through March on both the SCC Faribault and North Mankato campuses. Events like this as well as other career exploration events that are supported throughout the year, such as Career Expo, Construct Tomorrow, CRAVE, Scrubs Camp, Construction Trades Boot Camp, Tour of Manufacturing, Transportation Works, Health Science Mobile Lab all require significant scheduling, coordination, and communication efforts to ensure a pleasant and meaningful experience for partner districts. This coordination is led by consortium leadership with the support of the Career Navigator Assistant who manages a significant portion of the event logistics, including specific needs of individual students that will support their participation. The Career Navigator Assistant (with the support of consortium leadership) will help to arrange interpreters for ELL students, to coordinate accommodations for students with physical or cognitive disabilities, etc. The Career Navigator Assistant also supports other career exploration events throughout the year, so South Central College is in the process of reviewing and modifying the position title (changing to Career Exploration Coordinator) and some responsibilities of the position. The current position description is attached to this application, and the modified description can be provided this summer once it has been finalized through the MN State position audit process.

NOTE: Consortia must identify at least six State-recognized programs of study that represent at least four different career fields and with no more than one brokered with institutions outside the consortium. Review the Minnesota Perkins V Operational Guide for more information.

Version: 2-5-2024 Page 6 of 35

Version: 2-5-2024 Page 7 of 35

Narrative 3: Collaboration with local workforce development boards and other local workforce agencies

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to collaboration with **local workforce development boards** or other local workforce agencies?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This Need is in Element(s):						
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1□	2⊠	3□	4	5 🗆		
Enhance soft skills training (including time management) within CTE curriculum.							
2. Strategies to address need:							
Strategy 1: Identify meaningful opportunities for our CTE students to interact with indus	try pro	fession	als.				
Strategy 2: Evaluate CTE programs and identify soft skills training gaps.							
South Central College students and faculty will increase usage of the college's LinkedIn Learning subscription, which provides access to dozens of articles, videos, and course certifications related to soft skills training. Instructors may also assign modules to students.							
Strategy 3: Co-develop soft skills training components with industry partners to align with	th work	<mark>force e</mark>	<mark>xpecta</mark>	<mark>tions.</mark>			
3. Measurable Outcomes (report results in next APR):							
Outcomes for Strategy 1:							
 85% of CTE students engage with at least one industry professional per semeste 	<mark>r</mark>						
 Increase internship participation by 15% 							
 Increase student participation on regional advisory committees by 25% 							
Outcomes for Strategy 2:							
 LinkedIn Learning usage increase of 25% at the postsecondary level 							
 Participation in Skills for Success by districts will increase by 5%. 							
Outcomes for Strategy 3:							
 Identify five key industry partners to participate in training development 							
 Develop at least three co-designed soft skills training modules 							

Version: 2-5-2024 Page 8 of 35

- Describe how your consortium, in collaboration with local workforce development boards and other local workforce agencies, one-stop delivery systems, and other partners, will provide:
 - a. Career exploration and career development coursework, activities, or services including an organized system of career guidance and academic counseling.

Response:

The South Central WorkForce Council and MVAC staff participate in the Counselor's Community of Practice meetings hosted by the South Central Consortium. This partnership brings together area school counselors and MVAC youth counselors regularly to address the following:

- Key professional development, growth, or problem-solving topic of interest as determined by the community
- Student support services and partnership opportunities
- Collaboration with the CareerForce System and their provider for youth services,
 Minnesota Valley Action Council (MVAC)
- Collaboration with Office of Career and College Success including curriculum, assessment, graduation, and programming requirement updates and student options opportunities including regional and Perkins initiatives, postsecondary options, and online and blended learning options including SOCRATES Online advisory work
- Round table discussion and sharing time

Local workforce development boards, workforce agencies, chambers of commerce, and economic development agencies all support, and activity participate in a variety of career exploration events and activities. Examples include Career Navigator, Career Expo, Construct Tomorrow, Tour of Manufacturing, CRAVE, Scrubs Camp, Construction Trades Boot Camp, Transportation Works, Health Science Mobile Lab, and numerous local job fairs and mock job interviews hosted by local school districts.

b. Career information related to high-skill, high-wage, or in-demand industry sectors or occupations as identified by the comprehensive local needs assessment.

Response: The South Central WorkForce Council (SCWC)provides insight and feedback for South Central consortium leadership, which is a blueprint for local CTE services. Heather Gleason, South Central WorkForce Council Executive Director, is part of the Perkins Advisory Board. The WorkForce Board and Youth Council provide input to the CLNA at various board meetings and through electronic surveys. The workforce council provides a Career Corner newsletter with information on the South Central region's high-skill, high-wage, or in-demand industry sectors. SCWC staff also coordinate and present on a number of in-demand topics for our regional high schools. These topics include Job Search Techniques, Workplace Skills, Interviewing, Career Exploration and Financial Literacy. In partnership with South Central

Version: 2-5-2024 Page 9 of 35

College, the SCWC hosts a regional career pathway meeting with employers to talk through trends and employer insights.

c. Pre-Employment Transition Services (Pre-ETS) with Vocational Rehabilitation Services (DEED VRS) and adult education programs

Response: The Uniquely Abled Academy (UAA) at South Central College (SCC) is a program designed to provide individuals with autism (and other unique abilities) the hands-on training and high-tech skills needed to prepare for a career as a computer numerical control (CNC) operator. Uniquely Abled Academies were developed nationally through The Uniquely Abled Project with significant funding from DEED VRS to support the seven students moving through the program this summer. Throughout FY24, with support from a CTE equity capacity-building grant, South Central College (in partnership with SCSC) was able to host an exploration experience for students with special needs throughout our region to explore what an experience like UAA might be like. In summer 2025, UAA training opportunities will expand to Print Press Operation.

Version: 2-5-2024 Page 10 of 35

Workforce Center Collaboration

Enter information into this table as it applies to your consortium. This table does not self-tabulate. Add totals from Postsecondary Subtotal (line 3) and Secondary Subtotal (line 6) and enter that figure in Total (line 7). If there is no total or dollar amount in a line, enter Zero (0) in the corresponding spot.

	Workforce Center Collaboration	Total
1.	(POSTSECONDARY) Total Perkins funds used in collaboration with WorkForce Centers	0
2.	(POSTSECONDARY) Estimated expenditure/in-kind contributions used in collaboration with Workforce Centers	10,000
3.	Postsecondary Subtotal	10,000
4.	(SECONDARY) Total Perkins funds used in collaboration with WorkForce Centers	0
5.	(SECONDARY) Estimated expenditures/in-kind contributions used in collaboration with Workforce Centers	22,000
6.	Secondary Subtotal	22,000
7.	TOTAL	32,000

Version: 2-5-2024 Page 11 of 35

Narrative 4: Integrated Academic and Technical Skills

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Integrated Academic and Technical Skills**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This Need is in Element(s):):			
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1⊠	2 🗆	3□	4□	5 🗆			
Improve performance indicators where needed. According to the Consortium Performance Report, dated February 28, 2025, during Grant Year 4 for both Secondary and Postsecondary, the actual performance percentages were at or above all State Determined Performance Levels (SDPL). However, the SDPLs are changing for Grant Year 5 which we need to keep an eye on in a few areas because our current performance is at or just under the projected 2025 SDPL. Indicators to keep an eye on for Secondary include 2S2, 5S3. Postsecondary will watch 1P1.								
2. Strategies to address need:								
Strategy 1: Provide professional development opportunities and promote interdisciplinary collaboration Strategy 2: Review student data with the Perkins Advisory Committee								
3. Measurable Outcomes (report results in next APR):								
Outcomes for Strategy 1: Increase district participation in Amped on Algebra and/or Geometry in Construction by or Establish at least one formal opportunity for postsecondary faculty (both technical and ger discussion regarding course objectives, strategies, and techniques. Outcomes for Strategy 2: Identify three strategies to improve our poorest performing indicators								

NEED B:	This Need is in Element(s):):
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2⊠	3□	4	5 🗆
Identify which academic and technical skills are in-demand by our industry partners.					
2. Strategies to address need:					

Version: 2-5-2024 Page 12 of 35

Strategy 1:

Gather feedback from advisory board members to determine relevant and evolving skill needs.

Strategy 2:

Create a repository to share information provided and identify assessments needed. A repository is a place for storing things. Our CLNA indicated that we need to do a better job of identifying which academic and technical skills are in-demand by our industry partners (see NEED B: Prioritized Need Identified in the CLNA....just above). Our two strategies to support this NEED are:

- 1. Gather feedback to determine relevant and evolving (changing) skills needs.
- 2. Once we have those assessments identified, the information and links (any information that would help to guide educators and support staff) will be added to the accessible repository probably a Google document or a sheet so our secondary partners have access. The repository will be updated often to determine the best use of funds in relation to indemand academic and technical skills. There is currently not a space where this type of resource is comprehensively housed.
- 3. Measurable Outcomes (report results in next APR):

Outcome for Strategy 1:

Establish at least two new technical skill assessments within various programs of study

Outcome for Strategy 2:

- Organize and launch an organized digital repository
- 4. Provide additional narrative to address the following:
 - a. How will your consortium improve both the academic and technical skills of students in CTE programs?
 - By strengthening the academic and career and technical components of such programs

Response: The South Central consortium is dedicated to enhancing the academic and technical prowess of students enrolled in CTE programs. Through a multifaceted approach, we aim to cultivate a learning environment that not only equips students with essential technical skills but also fosters their academic growth, preparing them for success in both higher education and the workforce. This can be measured by industry certifications such as Serv Safe, OSHA, and CNA. Our Consortium continues to look for opportunities to embed and make a connection to relevancy in math and reading skills into all CTE programs. There are professional development opportunities through workshops that are available to interested districts. Contextualized Learning Concepts offers workshops called Amped on Algebra and Geometry in Construction that will be paid for through our Perkins grant. During our Communities of Practice convenings, this has been a topic of conversation with Business, FCS, WBL teachers and Counselors.

Work-based learning opportunities provide students with real-world exposure, allowing them to apply their academic and technical knowledge in professional settings. These experiences not only enhance their technical competencies but also instill essential workplace skills such as communication, teamwork, and problem-solving. In partnership with a local chamber of commerce, Greater Mankato Growth, we are having active conversations around building the talent pipeline from secondary to postsecondary (workforce, higher education) and looking

Version: 2-5-2024 Page 13 of 35

for ways to make stronger connections for our secondary students. We are currently working on an asset map which will provide us with a picture of what's currently offered, and we'll look for gaps that we can work together to support and fill.

Postsecondary leadership would like to see at least three programs embed a new TSA or other industry recognized credential into their programming. Discussions to date have indicated that these programs will come from manufacturing, healthcare, and business program areas.

As mentioned above, in support of the CLNA, South Central College also utilizes LinkedIn Learning, which can provide specific, self-paced learning and instructional opportunities for both students and faculty.

- b. Through integration of coherent and rigorous content aligned with challenging academic standards and relevant CTE programs
- c. To ensure learning in subjects that constitute a well-rounded education (as defined in section 8101 of the Elementary and Secondary Education Act of 1965)

Response: A key strategy to support the integration of rigorous academic content within CTE curricula is to intertwine core academic subjects such as mathematics, science, and language arts with technical instruction, providing students with a comprehensive educational experience. This approach not only reinforces academic concepts but also demonstrates their real-world applications, enhancing students' understanding and retention. One strategy to support this effort is to provide professional development opportunities for teachers and district leaders throughout the South Central consortium to learn how to, for example, connect math and skilled trades. Success here will increase our math scores for CTE students.

A collaborative effort with a similar concept is in initial discussion phases at the postsecondary level. Specific strategies will be discussed in depth over the summer months with academic leadership.

Version: 2-5-2024 Page 14 of 35

Narrative 5: Special Populations

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Special Populations**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This	Need i	s in Ele	ment(s):
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1⊠	2 🗆	3□	4	5□
Increase Secondary and Postsecondary Non-traditional Program Concentration					
2. Strategies to address need:					
Strategy 1: Implement targeted recruitment and outreach campaigns					
 Develop marketing materials featuring successful nontraditional students as role Host specialized open houses and exploration events for nontraditional students Partner with middle schools for early exposure to nontraditional career paths 		S			
Strategy 2: Address systemic barriers and build inclusive program cultures					
 Enhance faculty training on inclusive teaching practices and unconscious bias Review and revise curriculum and materials to ensure diverse representation Implement flexible scheduling options to accommodate various life circumstance 	es				
3. Measurable Outcomes (report results in next APR):					
Outcomes for Strategy 1:					
 35% increase in nontraditional student applications within one year 10% increase of nontraditional students reporting that recruitment materials inf 25% increase in middle school students expressing interest in nontraditional path 90% awareness of nontraditional opportunities among target student population 	<mark>hways</mark>	d their (<mark>decisior</mark>	<mark>1</mark>	
Outcomes for Strategy 2:					
 30% improvement in nontraditional student retention rates 85% of nontraditional students reporting a sense of belonging in their program 75% of nontraditional students successfully matched with relevant mentors 40% increase in nontraditional students' professional network connections 					

Version: 2-5-2024 Page 15 of 35

NEED B:	This Need is in Element(s):):	
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1 2 3 4					
Provide career exploration for ALL students. There are a variety of barriers that may hinder a student's ability to fully participate in career exploration activities and ensure that it is a meaningful experience. These barriers may include language, environmental factors (noise, lights, large crowds), physical limitations, etc. Targeted students include but are not limited to students who attend an ALC, students who are on an IEP, students who are served within special education, students who have been identified as not attending large group career exploration events and activities, and students who thrive in a smaller group setting. These students are identified with the assistance of district staff.						
2. Strategies to address need:	2. Strategies to address need:					
Strategy 1: Develop partnerships with Special Education Coordinators and ALC's Ensure partners have access to a career interest platform, for example, MCIS Provide career exploration tours with local industry partners and South Central College Provide postsecondary information such as Uniquely Abled Academy to all attendees						
3. Measurable Outcomes (report results in next APR):						
Outcomes for Strategy 1:						
 Add 3 new district partners for our yearly Career Exploration for All events Increase industry partnerships by 2 						

- 4. Provide additional narrative to address the following:
 - a. How will you address the barriers to access and success for special populations within CTE programs identified in your CLNA?

Response: Addressing these barriers starts with identifying the barriers. Identification can be done most efficiently through Communities of Practice, specifically the Counselor community of practice meeting, which is hosted three times a year. District counselors and other support staff see ALL students, not just CTE students, and can provide feedback on who's missing out on opportunities. This is how consortium leadership were able to identify that special education students were not participating in large career exploration events.

b. How will you prepare special populations for high-skill, high-wage, or in-demand occupations that will lead to self-sufficiency?

Response: Consortium leadership will continue to work with industry partners to identify indemand occupations that can be filled with students with a variety of special skills. A great example of this is the Uniquely Abled Academy which trains the industry partner and faculty how to work with students with special abilities. Our initiative to make these connections at the secondary level is called Career Exploration for All.

c. What new initiatives will you develop to better prepare CTE participants for non-traditional fields?

Version: 2-5-2024 Page 16 of 35

Response: Access for working adults continues to be a challenge with conflicting work and family schedules and responsibilities. Postsecondary CTE programs need to continue to evaluate the days, times, and delivery methods of their course offerings to better accommodate the needs of the students who are or desire to move through CTE programs. In FY25, in alignment with the MN State Guided Learning Pathways initiative, South Central College will implement a master course schedule. This scheduling process will focus on the needs of the student, eliminate course conflicts, and increase retention and completion rates throughout our CTE programs. As a relatively new initiative, the Health Science mobile lab will continue to provide exposure of the wide variety of health science careers. A key component of the mobile lab is not just the equipment, but also the individuals facilitating the activities and lessons. It is essential for event organizers (Perkins leadership and support staff) to encourage the involvement of non-traditional educators and industry partners, so students can see themselves in careers that have been traditionally dominant for specific populations.

d. How will you ensure members of special populations will not be discriminated against and have equal access to CTE?

Response: Communicating the importance of having all students participate in regional and local career exploration events and activities is essential to ensure students who represent special populations are reached. The South Central consortium has and will continue to provide resources for districts when their students need extra support such as translators, additional chaperones/paraprofessionals, materials for blind and hard-of-hearing students, etc.

Version: 2-5-2024 Page 17 of 35

Narrative 6: Work-Based Learning

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Work-based Learning**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This	Need i	s in Ele	ment(s):
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2	3⊠	4	5□
Expand Work Based Learning and industry connections.					
2. Strategies to address need:					
 Strategy 1: Develop a tiered work-based learning continuum with multiple entry points Create structured progression from job shadowing to internships to apprentices! Establish flexible scheduling options (summer, after-school, embedded school dastudent needs Continue to investigate and pilot WBL platforms for increased efficiency Strategy 2: Build a comprehensive industry partnership network across diverse sectors Create an industry partnership council with representation from high-demand see Establish a streamlined process for businesses to engage in work-based learning Develop industry-specific training for workplace mentors and supervisors Enhance usage of the Future Forward platform 	ay) to ace		odate o	<mark>liverse</mark>	
3. Measurable Outcomes (report results in next APR):					
Outcomes for Strategy 1: 50% of districts participating in at least one work-based learning experience before 30% increase in work-based learning participation among underrepresented study. Outcomes for Strategy 2:	_				
 25% increase in industry partners participation in Future Forward 25% increase in secondary usage of Future Forward 					

1. Provide additional narrative to address the following:

Version: 2-5-2024 Page 18 of 35

a. Describe the current work-based learning opportunities provided to students enrolled in CTE programs at the secondary and postsecondary levels.

Response: At the secondary level, the number of work-based learning teachers and coordinators has increased and has provided many opportunities for students throughout the consortium. The 5S3 performance indicator is solid and has been growing over the previous three years. Current opportunities in WBL for teachers and coordinators include participating in the WBL Community of Practice. This CoP is very well attended, led by teachers, and has created marketing materials for both special and regular education programs, a curriculum that can be shared across the region, and a variety of professional development opportunities including the ACTE Work Based Learning spring conference. The WBL CoP has become well known across the state with frequent requests to attend the CoP or schedule a 1:1 meeting to learn more. The WBL CoP is currently working on updating curriculum together and sharing resources with each other through a shared drive. This is helpful for new teachers and coordinators to be able to access a starting point. These resources are also helpful for teachers and coordinators who have been in the role for a while and need a fresh perspective. Our WBL CoP is made up of teachers and coordinators from regular and special education which allows for rich conversation and a sense of connection for all students.

At the postsecondary level, CTE programs will continue to expand work-based learning opportunities. These efforts are supported by and in collaboration with SCC's Office of Strategic Partnerships. These opportunities include apprenticeships, internships/externships, job shadowing, service learning, etc.

b. Describe how your consortium will partner with employers to develop or expand work-based learning programs for all CTE students, including special populations, at both the secondary and postsecondary levels.

Response: By leveraging relationships with local workforce boards, chambers of commerce, economic development agencies, and large employers, the South Central consortium is poised to expand partnerships throughout the region. We actively engage our community partners and employers in all of our career exploration opportunities. Without them, we would not be able to host such amazing events. They are included on the planning activities and implementation – they not only supply human talent to our events but also bring in the relevancy of local careers that is needed for our students to make a connection to what they're learning in school to the real world.

c. Describe how your consortium will invest financial resources to increase work-based learning opportunities at the secondary and postsecondary levels.

Response: Funds will be leveraged to provide additional professional development opportunities for our teachers and coordinators. Consortium leadership will also continue to facilitate a WBL Community of Practice where teachers and coordinators share best practices,

Version: 2-5-2024 Page 19 of 35

resources, curriculum, and industry connections. This has proven to be a strong resource for consortium districts.

Postsecondary funding will continue to partially support an Employment Services & Partnership Coordinator who supports the development, implementation, and evaluation of employer partnerships to provide enhanced internship and work-based learning opportunities for the college.

NOTE: In Minnesota, work-based learning serves as a program quality indicator at the secondary level. Data for this indicator is collected from students enrolled in a Work Experience course (course code 97) that provides at least 40 hours of work experience. Experiential learning activities such as career fairs and job shadows are not captured in the performance indicator data.

Version: 2-5-2024 Page 20 of 35

Narrative 7: Early Postsecondary Credit Opportunities

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Early Postsecondary Credit Opportunities**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This Need is in Element(s):						
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2 🗆	3⊠	4□	5 🗆		
Find more ways to offer college credit through PSEO, Concurrent Enrollment, and Articula	ated Co	llege Cı	redit.				
2. Strategies to address need:							
Strategy 1: Develop flexible and innovative delivery models for college credit courses Create multi-modal course structures with college faculty Increase evening PSEO options Increase regional hub locations for specialized courses serving multiple districts Increase early college high school models within existing high schools							
Strategy 2: Enhance Credit for Prior Learning (CPL) options Identify CPL opportunities within CTE pathways Increase CPL assessment options across CTE programs							
3. Measurable Outcomes (report results in next APR):							
Outcomes for Strategy 1: 15% increase in students participating in dual enrollment 90% retention rate of teachers in concurrent enrollment programs							
Outcomes for Strategy 2: • 30% increase in CPL assessment options across CTE programs							

NEED B:	This Need is in Element(s):
---------	-----------------------------

Version: 2-5-2024 Page 21 of 35

 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2⊠	3□	4□	5 🗆
Continue shaping H2C (High School to College) programming. This includes modifications r as well as expanding programming and pathway development.	needed	to curr	ent pro	gramm	ing
2. Strategies to address need:					
Strategy 1: Develop business education pathway program					
Strategy 2: Identify opportunities for improvement in current pathway programming.					
3. Measurable Outcomes (report results in next APR):					
Outcome for Strategy 1: Pilot one business education pathway program					

- 4. Provide additional narrative to address the following:
 - a. What opportunities are available and/or are being developed for CTE students to earn postsecondary credit while still in high school?

Response: The High STEP Health Science Academy provides students with the opportunity to earn college credit by taking health science courses, such as Medical Terminology, and participating in industry-led experiences to prepare them for healthcare careers. High Step Health Science Academy is offered at 13 local schools. Similar programming was implemented in the SourceCode Information Technology Academy which prepares students for IT careers. An Education Career Academy has launched and will be available for enrollment Fall 2024. This academy model supports our rural districts, allowing for students in districts with smaller enrollments and limited resources to earn college credit via dual enrollment at or near their high school. Dual enrollment CTE pathways provide students with more streamlined program completion options, work-based learning opportunities, and certification options.

The H2C (High School to College and Career) pathway program partnership with Faribault High School is in its third year. Health Science and MEC (Manufacturing, Engineering, and Construction) pathways have been established with opportunities for students to earn college credit via concurrent enrollment and traditional PSEO. The geographic advantage that SCC has with FHS decreases some of the transportation and access barriers for students participating in dual enrollment.

The South Central consortium will continue to develop and maintain multiple articulation agreements with school districts throughout the region. Although the operational costs of

Version: 2-5-2024 Page 22 of 35

Articulated College Credit (ACC) have increased, both secondary and postsecondary participants appreciate the opportunity to engage with one another at regional ACC meetings, held in a hybrid format on the South Central College campus. Articulated credit options and processes need to be better communicated to students and families, however, the number of students who utilize the credit earned in a specific program of study at SCC is quite low. Strategies to combat these low numbers are currently in development and the consortium will continue to analyze usage data to determine future sustainability.

South Central College is in the midst of developing its institutional application for NACEP (National Alliance of Concurrent Enrollment Partnerships) reaccreditation. Successful completion of this process will award continued accreditation status through the FY33 academic year.

Additionally, postsecondary funding will continue to partially support the Dual Enrollment Pathways/Transitions Coordinator. Most of SCC's dual enrollment options (including all concurrent enrollment options) are in or support technical programs. The DEPTC provides comprehensive support in all aspects of dual enrollment development, maintenance, and program compliance. This position also provides support as students matriculate to South Central College after high school.

Version: 2-5-2024 Page 23 of 35

Narrative 8: Support to Professionals

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed. 1234

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Support to Professionals**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This	Need i	s in Ele	ment(s):
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2□	3□	4⊠	5 🗆
Continue to offer professional development opportunities. This will include a continued fo Practice for Counselors and CTE Teachers. This should also include joint professional devel post-secondary teaching professionals. THIS WAS COPIED FROM OUR CLNA.					and
2. Strategies to address need:					
Strategy 1: Enhance Communities of Practice					
 Implement structured meeting schedules with facilitated collaboration time Develop peer observation and feedback protocols within communities Create digital repositories for sharing resources and best practices Establish mentorship pairings between experienced and new professionals 					
Strategy 2: Build robust secondary and post-secondary collaborative professional develo	pment				
 Create joint teaching teams across secondary and postsecondary institutions Enhance communication regarding CTE professional development opportunities Develop shared curriculum planning sessions with aligned standards 					
Strategy 3: Personalize professional growth through differentiated learning pathways					
 Implement microcredential programs aligned to career pathway needs Create industry externship opportunities for educators 					
3. Measurable Outcomes (report results in next APR):					
Outcomes for Strategy 1:					
 Increase the number of counselors and CTE teachers actively participating in Cor Add 1 postsecondary partner to each COP 30% increase in resource sharing and collaborative problem-solving 	nmunit	cies of P	<mark>ractice</mark>	by 50%	ó
Outcomes for Strategy 2:					

Version: 2-5-2024 Page 24 of 35

- 20% increase in curricular alignment between secondary and postsecondary programs
- 20% increase in CTE professional development participation

Outcomes for Strategy 3:

- 30% increase in implementation of industry-informed instructional practices
- 85% of educators reporting that PD directly impacts their classroom effectiveness
- 10% increase of secondary educators participating in summer externship

NEED B:	This Need is in Element(s):						
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2 🗆	3□	4⊠	5 🗆		
Promote the Teacher Induction Program (TIP) to our new CTE Teachers. Find ways to make local connections for new and seasoned teachers. Directly from our survey: Partnerships, Collaboration, and Support.							
2. Strategies to address need:							
Strategy 1: Promote the opportunity to participate in TIP Identify new CTE teachers and share a welcome email with CTE TIP information							
3. Measurable Outcomes (report results in next APR):							
Outcomes for Strategy 1: Increase participation in CTE TIP by 10%							

- 4. Provide additional narrative to address the following:
 - a. Describe the specific actions your consortium will take to support the recruitment and preparation of education professionals, including individuals from groups underrepresented in the teaching profession.

Response: Districts throughout the region have reported the need for additional career and technical education professionals. The comprehensive local needs assessment confirms the need to continue to provide professional development opportunities for existing CTE professionals. The consortium must also continue to promote education as a viable option for our high school students to explore by creating PSEO options and other exploration opportunities. At the postsecondary level, students in various CTE programs are encouraged to engage with younger students at career exploration events. This experience provides postsecondary students with an opportunity to teach in their current program of study, perhaps creating a spark that enhances their desire to pursue a career in technical education.

Version: 2-5-2024 Page 25 of 35

Recruiting postsecondary educators continues to be a challenge for South Central College, with some career fields having more difficulty recruiting and retaining faculty than others. Although this challenge is not unique to South Central College, the effects of extended or failed instructor searches have had a significant impact on programming this year. Many of the postsecondary educators that are hired come in directly from industry and need significant training in andragogy, classroom management, and more generalized education best practices. CTE faculty have and will continue to be encouraged to provide their students with opportunities for them to teach and engage with other students (high school, first-year, prospective) and potentially embed a desire to pursue a career as a postsecondary (or secondary CTE) educator. Some CTE careers (such as Nursing and Mechatronics) offer professionals a higher wage to work in the field and it can be difficult to recruit faculty. The consortium will continue to research and implement, as appropriate, best practices to retain high-quality faculty.

Faculty that are hired receive extensive support from the college's Center for Teaching and Learning Excellence who are skilled and equipped to provide (in partnership with the academic dean and other faculty in the field) onboarding, training, and support for CTE educators coming in from business and industry. CTE program administrators (primarily academic deans) and Perkins leaders recognize the value that this department provides for incoming CTE educators and will support efforts to provide and enhance when needed, effective andragogical training.

Professional development continues to be a top priority for the South Central consortium. Some examples of professional development include Communities of Practice, ACTE Work Based Learning Conference, Everybody Works Conference, AFNR Summer Industry Tours, Teacher Externships, MAAE Conference, CareerForce Partner Training Day, ACTE Vision Conference, FACS to the MAX, CTE Works!, MBITE, MACTA, to name a few.

 Describe the specific actions your consortium will take to retain, train, and develop education professionals and ensure applicable certification, credential, and licensure requirements are met.

Response: Some of the professional development opportunities that will continue to be supported include Communities of Practice for Counselors, FCS, Business, WBL, and Workforce Development Coordinators. In addition to the professional development opportunities listed above, our Consortium will continue to work with statewide resources to ensure any teacher interested in obtaining a CTE license has the resources they need.

Version: 2-5-2024 Page 26 of 35

Narrative 9: Performance Gaps

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Performance Gaps**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This	Need i	s in Ele	ment(s):
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1⊠	2□	3□	4□	5 🗆
Increase CTE participants and concentrators.					
2. Strategies to address need:					
Strategy 1: Implement early awareness and structured pathway exploration					
 Develop grade 7-9 exploratory CTE courses with hands-on components Create CTE pathway "roadmaps" showing clear progression and outcomes Implement CTE showcase events for students and families Share best practices regarding the establishment of exploratory courses in the m Strategy 2: Remove barriers to CTE participation and persistence	niddle g	<mark>rades.</mark>			
 Evaluate and adjust course scheduling to maximize accessibility Implement early intervention protocols for struggling CTE students 					
Strategy 3: Enhance CTE program relevance and engagement					
 Integrate project-based learning with authentic industry challenges Develop clear connections between CTE pathways and high-demand careers by Create culminating experiences showcasing student learning and achievement Establish and promote student leadership opportunities within CTE programs. The establishing a seat on program advisory committees, increasing CTE student presincrease the number of postsecondary students leading career exploration activity. Navigator sessions). 	nese op sence w	portuni vithin St	ities co tudent	uld incl Senate,	ude ,
3. Measurable Outcomes (report results in next APR):					
Outcomes for Strategy 1:					

Version: 2-5-2024 Page 27 of 35

- 10% increase in CTE course enrollment following exploratory experiences. WE WILL LOOK AT STUDENT ENROLLMENT IN CTE COURSES AND DETERMINE, BY LOOKING AT ENROLLMENT THE FOLLOWING YEAR, IF THE NUMBER OF STUDENTS HAS INCREASED. THAT WOULD PROVIDE US A PERCENTAGE OF INCREASED ENROLLMENT.
- 30% increase in parent/family attendance at CTE information events
- 10% of students who sample CTE courses continuing to full pathway participation

Outcomes for Strategy 2:

- 25% increase in participation from previously underrepresented student groups
- 40% retention rate of students from first CTE course to second CTE course

Outcomes for Strategy 3:

- 40% increase in students progressing from participants to concentrators
- 80% of students reporting connection between CTE coursework and career goals
- 70% of CTE programs incorporating authentic industry projects
- 90% of CTE concentrators demonstrating mastery of industry-relevant skills through industry recognized credentials
- 4. Provide additional narrative to address the following **if not already addressed in the table above**:
 - a. What specific student group(s) were identified as having significant disparities or performance gaps?

Response: Postsecondary disparities were most significantly identified within indicator 2P1: Earned Recognized Postsecondary Credential, with Alaska Native, Black or African American, and English Language Learner students experiencing the largest performance gaps. Some of these same populations, specifically Black or African American and English Language Learners, saw smaller performance gaps within the 3P1: Nontraditional Program Enrollment indicator.

On the secondary side, our Hispanic students are not becoming concentrators at a similar rate to black or white students. A few of our districts have received transportation funding to bring Spanish speaking students to South Central College's information sessions, presented in Spanish.

b. What specific actions will the consortium take at both the secondary and postsecondary level to eliminate these disparities or close performance gaps?

Response: The South Central consortium will continue to focus on math and reading proficiency, as indicated not only by our performance report but also within our CLNA. Workbased learning needs to continue to be a priority for secondary, with a focus on retention and completion on the postsecondary side. Maintaining efforts to provide professional development opportunities for our core and CTE teachers (both secondary and

Version: 2-5-2024 Page 28 of 35

postsecondary) to work together to see where their courses align and where they can bring each other into a shared classroom is essential for student success in virtually any CTE program. We will continue to provide funding to support teachers and district leadership who want to incorporate math into their CTE courses and vice versa. This has proven successful with the MAPS district.

At the postsecondary level, there will be specific focus for programs within IT, transportation, and education, as these career clusters have been identified as having the largest gaps within

We will continue to find ways to provide translation services from English to Spanish for our students. This will allow them to experience career exploration and CTE at higher rates.

Narrative 10: Consortium Governance

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- 1. Of the consortium's prioritized needs from the *CLNA Results and Priorities*, which one(s) will be addressed in relation to **Consortium Governance**?
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This Need is in Element(s):				
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1⊠	2⊠	3⊠	4⊠	5⊠

Marketing CTE and its benefits to students and communities needs to continue to be a priority. Throughout the CLNA, there is a connection to marketing CTE.

For example, Page 7 element 2, Need A: "Increase dual credit opportunities which included Articulated College Credit, Concurrent Enrollment, PSEO" and Need B: "Increase shared CTE programming and exploration with our smaller districts. You can NOT achieve either need area without proper marketing.

Here's another example. Element 3, Need A: "Expand CTE course options and exploration in our rural districts." Without marketing or communicating to counselors and teachers, the consortium will not be able to expand CTE course options and exploration. EXPLORATION REQUIRES SUB REIMBURSEMENTS AND TRANSPORTATION FUNDING.

2. Strategies to address need:

Strategy 1: Student Success Storytelling Campaign

- Video Testimonial Series that will feature diverse CTE graduates sharing their success stories. WE WILL WORK WITH THE SERIES DEVELOPER TO ENSURE THEY ARE ACCESSIBLE.
- Highlight various pathways including college enrollment, direct employment, military service and entrepreneurship
- Focus on tangible outcomes: salary information, career advancement and quality of life benefits

Version: 2-5-2024 Page 29 of 35

Strategy 2: Comprehensive Data-Driven Community Engagement

- ROI Information Campaign Develop infographics highlighting CTE economic impact data: graduate salary comparisons, employment rates, stackable credential roadmaps
- Community Partnership Events host quarterly "Future of Work" summits bringing together businesses, parents, and educators

Strategy 3: Interactive Online Exploration Tools

- Find a new use for the Career Navigator online platform which would allow students and parents to visualize different CTE paths and outcomes. This could be a good middle grades tool
- Promote the use of an interactive quiz helping students identify CTE programs matching their interest and strengths
- 3. Measurable Outcomes (report results in next APR):
 - Increase community event attendance by 35% year-over-year
 - Generate 50+ pieces of positive media coverage annually
 - Improve comprehensive survey ratings on CTE awareness by 40%
 - Increased website traffic for Career Navigator by 60%
- 1. Provide additional narrative to address the following:
 - a. Describe your consortium's formal governance structure, including:
 - How the consortium leadership is organized,
 - Processes used for making financial decisions,
 - Processes and structures in place to ensure secondary and postsecondary collaboration, and
 - Communication systems in place to ensure all consortium members are continually informed.
 - Note any areas of governance that are being developed or improved.

Response: The South Central Consortium consists of 23 independent school districts, two cooperative education districts, the South Central Service Cooperative, and South Central College.

The Consortium Advisory Committee meets quarterly to review data, discuss needs, guide plan implementation, make financial decisions, and brainstorm creative solutions. It is a priority that the advisory board membership is composed of secondary staff, administrators, and educators from both rural and urban districts across the geographical region of the consortium and South Central College leadership. In FY26, Consortium leadership will be making a substantial effort to diversify the advisory committee, with increased membership of both secondary and postsecondary educators, as well as additional postsecondary staff and administrators.

Version: 2-5-2024 Page 30 of 35

One area of development for the South Central Perkins Advisory is to find a reasonable and fair way to rotate district membership. With as many secondary partners as we have, we need to identify a length of service per district, so more voices are at the table. This will be a priority for FY26.

Along with consortium leadership, the Secondary Relations/Perkins Administrative Assistant is also partially supported with these funds.

Version: 2-5-2024 Page 31 of 35

Narrative 11: Reserve Funds

Reserve funds can be used to address Performance Gaps or to develop or improve Programs of Study or CTE Programs.

Use the table below to answer questions 1-3. Use one table for each CLNA prioritized need. Copy and paste additional tables if more than two priorities will be addressed.

- Of the consortium's prioritized needs from the CLNA Results and Priorities, which one(s) will be addressed in relation to Reserve Funds? For each need identified, check the box for the associated Reserve Category (Performance Gaps, Develop or Improve POS/CTE programs).
- 2. What are the strategies to address these needs?
- 3. What are the desired measurable outcomes for this strategy? (You will be reporting on these outcomes in the next APR)

NEED A:	This Need is in Element(s):							
 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2 🗆	3□	4	5⊠			
Identify and develop logistical process improvements for the Health Science Mobile Lab to ensure ease of access for regional districts and college programs, as well as optimal safety and functionality of equipment, to enhance usage, longevity, and sustainability.								
Reserve Category: □ Performance Gaps ⊠ Develop or Improve POS/CTE progra	ams							
2. Strategies to address need:								
Strategy 1 Identify an easy, accessible registration system for secondary partners and college program Strategy 2 Identify an easy-to-use check-out system for secondary partners and college programs. Strategy 3 Identify a plan for checking the equipment back in for post-secondary staff to ensure the enext district or college program.		ent is re	eady to	use for	the			
3. Measurable Outcomes (report results in next APR):

NEED B: This Need is in Element(s):

Version: 2-5-2024 Page 32 of 35

 Prioritized Need Identified in the CLNA (copy text from CLNA Results & Priorities into field below): 	1	2 🗆	3□	4□	5⊠		
Our rural districts need help. Continue to find ways to make sure they are receiving access tools, and equipment.	to regi	onal CT	E progr	ammin	g,		
Reserve Category: ⊠ Performance Gaps □ Develop or Improve POS/CTE programs							
2. Strategies to address need:							
1. Mobile CTE Labs and Equipment Sharing Programs							
Rural districts often struggle with the high costs of specialized equipment and facilities. A nathris gap:	nobile a	approad	h can h	nelp bri	<mark>dge</mark>		
 Implement regional equipment sharing programs where multiple districts jointly tools and technology. The 2025-26 school year will be the last for TEC Network. 	invest	in and s	hare hi	igh-cost			
 Create centralized "lending libraries" of specialized equipment that rural schools specific course modules. 	can bo	<mark>rrow as</mark>	neede	d for			
2. Virtual and Hybrid CTE Programming							
Technology can help overcome geographical barriers:							
 Partner with local employers to provide supervised workplace learning opportun Provide VR headsets and programming to support classroom instruction 	ities th	at comp	olemen	t instru	ction		
3. Measurable Outcomes (report results in next APR):							
Outcomes: Add 1 mobile lab to the existing Health Science Mobile Lab https://www.mnscsc.org/services/health-science-mobile-lab Increase VR headsets in the region by 10%							

- 4. Provide additional narrative to address the following:
 - a. Identify the specific performance indicator(s) or student population gap(s) that will be addressed with Reserve funds.
 - b. Identify the specific program and/or program of study that will be addressed with Reserve funds, including whether the focus is expansion or development of a new program and/or program of study at the secondary or postsecondary level.

Response: On the secondary side, we want to increase opportunities with the Mobile Health Lab, TEC Network, and the Big Ideas trailer for our Hispanic students and the middle grades. The programs of study impacted by this effort will include Health Science, AFNR, and Trade &

Version: 2-5-2024 Page 33 of 35

Industry. We will also make these opportunities available to our friends at the Alternative Learning Centers/Programs. In addition to continued support of the Health Science Mobile lab, we will look for another programmatic area to add one more option.

Postsecondary reserve funding will focus on improving the number of students (specifically, but not limited to, Black or African American and Hispanic males) earning postsecondary credentials. Strategies to close these performance gaps will be done in collaboration with secondary as we continue to develop and enhance CTE dual enrollment pathway programming.

South Central College is actively exploring opportunities for program development, specifically within CTE. Discussions to this point have specifically identified the need for an Electrical Technician program, which would originate on SCC's Faribault campus.

Version: 2-5-2024 Page 34 of 35

Perkins-Funded Positions

Submit the following with your application materials:

- Completed Perkins-Funded Positions spreadsheet
- Position descriptions for every position partially or fully funded by Perkins

Required Documentation

These required documents must be submitted with your Perkins V Local Application:

- 1. Statements of Assurance (Statements of Assurance should be combined and uploaded as one single PDF)
- 2. CLNA Results & Priorities document
- 3. S-RPOS Funding POS spreadsheet
- 4. Combined Secondary Postsecondary Budget spreadsheet
- 5. Consortium Consolidated Equipment Inventory
- 6. Perkins Funded Positions spreadsheet
- 7. Position Descriptions for each position partially or fully funded by Perkins
- 8. Improvement Plan (Only required for those consortia on an improvement plan)

Version: 2-5-2024 Page 35 of 35

PERKINS V COMPREHENSIVE LOCAL NEEDS ASSESSMENT (CLNA) RESULTS & PRIORITIES

To be submitted with the FY25 Local Application (award period: July 1, 2024 – June 30, 2025)

Consortium Name: South Central

Purpose of the CLNA Results and Priorities

The purpose of the *CLNA Results and Priorities* is to highlight the key needs identified in your extensive CLNA process. This document addresses the following:

- Key partners involved in the CLNA process.
- Specific needs identified in your CLNA as they relate to each of the required elements.
- Rationale for the specific needs identified.
- Prioritizing needs for each element.

Version: 2-5-2024

Briefly describe the process used to complete the CLNA (type your summary in the space below):

Survey results from Counselors, CTE educators, workforce development coordinators, secondary and postsecondary administrators, and regional partners.

Feedback from Perkins Advisory Members.

Feedback from Youth Council and Workforce Council Members which included industry partners.

Career Data from Real-time Talent

Communities of Practice: Counselors, Business, FCS, Ag, T&I, WBL teachers and coordinators.

SB3T Meetings which are attended by Greater Mankato Growth, Educational Talent Search, Workforce Development Coordinators and Work Based Learning Coordinators, South Central Workforce Council, South Central College, and Minnesota Valley Action Council.

Career Navigator surveys – presenters (faculty + industry partners), district representatives

Post-secondary course evaluations

Career Exploration for Special Education students survey results

What the Perkins V law says about consultation in the needs assessment process (Section 134):

In conducting the comprehensive local needs assessment, and developing the local application, an eligible recipient shall involve a diverse body of representative groups, including, at a minimum:

- Representatives of Career and Technical Education programs in a local educational agency or educational service agency, including teachers, career guidance and academic counselors, principals and other school leaders, administrators, and specialized instructional support personnel and paraprofessionals;
- Representatives of Career and Technical Education programs at postsecondary educational institutions, including faculty and administrators;
- Representatives of the State board or local workforce development boards and a range of local or regional businesses or industries;
- Parents and students;
- Representatives of special populations¹;
- Representatives of regional or local agencies serving out-of-school youth, homeless children and youth, and at-risk youth (as defined in section 1432 of the Elementary and Secondary Education Act of 1965);
- Representatives of Indian Tribes and Tribal organizations in the State, where applicable; and,
- Any other individuals that the eligible agency may require the eligible recipient to consult.

¹ The Perkins V law defines special populations as individuals with disabilities; individuals from economically disadvantaged families, including low-income youth and adults; individuals preparing for nontraditional fields; single parents, including single pregnant women; out-of-workforce individuals; English learners; homeless individuals; youth who are in, or who have aged out of, the foster care system; and youth with a parent who is on active duty in the military.

Please indicate the key partners involved in the completion of this needs assessment:

Name	Title	Group Represented
Kim Hermer	Career Development Specialist, MAPS	Work Based Learning – Teachers,
Kim Mueller	CTE Coordinator, South Central Service	Counselors, Students, Families

ELEMENT #1: STUDENT PERFORMANCE ON REQUIRED PERFORMANCE INDICATORS

Refer to the Guidance to Assess Element One section of Minnesota's Comprehensive Local Needs Assessment Guide.

- Performance Indicator data can be found in these sources:
 - Secondary Secure Reports
 - o Postsecondary PowerBI Reports
 - o Annual Consortium Indicator Report on the Perkins Consortia webpage

In the following table, list the needs identified in the CLNA for Element #1. Place needs in order by priority with the highest priority listed first in the table. High priority needs are expected to be addressed in the application.

PRIORITIZED NEEDS Element 1: Student Performance on Required Performance Indicators

Element 1: Student Performance on Required Performance Indicators
E1-Need A: Increase CTE participants and concentrators.
E1-Need B: Increase Post Program Placement (3S1)
E1-Need C: Increase Nontraditional Program Concentration (3P1)
E1-Need D: Continue to find ways to increase Academic Proficiency in Reading and Language Arts and Mathematics (2S1 & 2S2)
E1-Need E:

ELEMENT #2: PROGRAM SIZE, SCOPE, AND QUALITY TO MEET THE NEEDS OF ALL STUDENTS

Refer to the Guidance to Assess Element Two section of Minnesota's Comprehensive Local Needs Assessment Guide.

Minnesota defines size, scope and quality at the consortium level as follows:

Size: Parameters/resources that affect whether the program can adequately address student learning outcomes. This includes:

- Number of students within a program
- Number of instructors/staff involved with the program
- Number of courses within a program
- Available resources for the program (space, equipment, supplies)

Scope: Programs of Study are part of, or working toward, inclusion within a clearly defined career pathway with multiple entry and exit points. (The goal of six State-Recognized Programs of Study offered within a consortium is a component of the full Perkins V plan.)

- Programs of Study are aligned with local workforce needs and skills.
- Postsecondary programs connect with secondary career and technical education via articulation agreements and/or dual credit, etc.
- Programs develop not only specific work-based skills, but also broadly applicable employability skills.

Quality: A program must meet two out of the following three criteria: The program develops (1) high-skilled individuals, (2) individuals who are competitive for high-wage jobs, and (3) individuals who are trained for in-demand occupations.

- **High-skilled**: Programs that result in industry-recognized certificates, credentials, or degrees.
- **High-wage**: High-wage is anything that is above the median wage for all occupations (\$47,986 based on 2021 data from Minnesota Department of Employment and Economic Development).
- In-demand: Occupations that are identified in <u>DEED's Occupation in Demand index</u> and/or through the Comprehensive Local Needs Assessment

In the following table, list the needs identified in the CLNA for Element #2. Place needs in order by priority with the highest priority listed first in the table. High priority needs are expected to be addressed in the application.

PRIORITIZED NEEDS

Element 2: Program Size, Scope, and Quality to meet the needs of all students
E2-Need A: Increase dual credit opportunities which include Articulated College Credit, Concurrent Enrollment, PSEO.
E2-Need B: Increase shared CTE programming and exploration with our smaller districts.
E2-Need C: Continue shaping H2C (High School to College) programming. This includes modifications needed to current programming as well as expanding programming and pathway development.
E2-Need D: Enhance soft skills training (including time management) within CTE curriculum.
E2-Need E

ELEMENT #3: PROGRESS TOWARDS IMPLEMENTATION OF CTE PROGRAMS OF STUDY

Refer the **Guidance to Assess Element Three** section of <u>Minnesota's Comprehensive Local Needs Assessment Guide</u>.

In the following table, list the needs identified in the CLNA for Element #3. Place needs in order by priority with the highest priority listed first in the table. High priority needs are expected to be addressed in the application.

PRIORITIZED NEEDS

Element 3: Progress towards implementation of CTE Programs of Study
E3-Need A: Expand CTE course options and exploration in our rural districts.
E3-Need B: Expand Work Based Learning and industry exposure.
E3-Need C: Find more ways to offer college credit through PSEO, Concurrent Enrollment, Articulated College Credit.
E3-Need D: Strengthen and expand industry partnerships that will support our CTE programming.
E3-Need D. Strengthen and expand industry partnerships that will support our GTE programming.
E3-Need E

ELEMENT #4: IMPROVING RECRUITMENT, RETENTION, AND TRAINING OF CTE PROFESSIONALS, INCLUDING UNDERREPRESENTED GROUPS

Refer to the **Guidance to Assess Element Four** section of *Minnesota's Comprehensive Local Needs Assessment Guide*.

In the following table, list the needs identified in the CLNA for Element #4. Place needs in order by priority with the highest priority listed first in the table. High priority needs are expected to be addressed in the application.

PRIORITIZED NEEDS

Element 4: Improving recruitment, retention, and training of CTE professionals, including underrepresented groups
E4-Need A: Continue to offer professional development opportunities. This will include a continued focus on our Communities of Practice for Counselors and CTE Teachers. This should also include joint professional development between secondary and post-secondary teaching professionals.
E4-Need B: Promote the Teacher Induction Program (TIP) to our new CTE Teachers. Find ways to make local connections for new and seasoned teachers. Directly from our survey: Partnerships, Collaboration, and Support.
E4-Need C: Better pay was rampant in our survey results. We need to continue to cover costs for sub-reimbursement so our CTE teachers can take advantage of workshops,
communities of practice, and professional development.
E4-Need D: Public recognition of our teacher and student accomplishments in CTE.
E4-Need E: Enhance new instructor mentorship opportunities throughout postsecondary CTE.

ELEMENT #5: PROGRESS TOWARDS EQUAL ACCESS TO CTE PROGRAMS FOR ALL STUDENTS

Refer to the **Guidance to Assess Element Five** section of *Minnesota's Comprehensive Local Needs Assessment Guide*.

In the following table, list the needs identified in the CLNA for Element #5. Place needs in order by priority with the highest priority listed first in the table. High priority needs are expected to be addressed in the application.

PRIORITIZED NEEDS

Element 5: Progress towards equal access to CTE programs for all students
E5-Need A: Our rural districts need help. Continue to find ways to make sure they are receiving access to regional CTE programming, tools, and equipment.
E5-Need B: The Career Exploration @ SCC for our special education students was a success during the 23-24 pilot year. This will be an activity that Perkins will continue to support.
E5-Need C: The Health Science Mobile Lab pilot was also a success and will be offered through Perkins next year.
E5-Need D
E5-Need E

Enter allocation amounts you received in your State letter in the YELLOW cells in columns B and C:	Basic	Reserve	Sec/PS Subtotals
Secondary Allocation:	\$303,760.33	\$64,239.31	\$367,999.64
Postsecondary Allocation:	\$220,113.42	\$64,239.31	\$284,352.73
Total Consortium Allocation:	\$523,873.75	\$128,478.62	\$652,352.37

INSERTING ADDITIONAL ROWS

To insert additional rows on any of the four "Funding" tabs (to ensure that embedded formulas continue to work):

- 1. Right-click on the row number of a empty row in the section for which additional rows are needed.
- 2. From the popup menu, select "Copy"
- 3. Right-click the same row again
- 4. From the popup menu, select "Insert Copied Cells"

DATA ENTRY

Data entry on the four "Funding" tabs includes the following reminders:

- 1. Do NOT change any information in rows 1 3.
- 2. Cells highlighted in YELLOW require data entry.
- 3. Dollar amounts entered beginning in row 4 do NOT require including amounts after the decimal point.
- 4. Do NOT make any entries in cells highlighted in GREEN or BLUE. These cells have formulas.

SUMMARY SPREADSHEET

Amount reported on the Summary Spreadsheet will auto-populate from other tabs in this Workbook. DO NOT enter any data on this spreadsheet.

Rows 47-52 allow you to compare your budget request totals to the allocation amounts entered above on this Instructions tab.

- 1. If the amount reported on the "Budget Over/Short" row is \$0...your request is equal to your allocation. This is the goal--Congratulations!
- 2. If the amount reported on the "Budget Over/Short" row is shown in **BLACK** text in a white background cell--your request does not yet total the amount of your allocation. Return to the four "Funding" tabs to **increase** your requests as needed to reach the goal of \$0 yet to be allocated.
- 3. If the amount reported on the "Budget Over/Short" row is shown in **RED** text in a **RED** background cell--your request has exceeded the amount of your allocation. Return to the four "Funding" tabs to **decrease** your requests as needed to reach the goal of \$0 yet to be allocated.

STEP-BY-STEP INSTRUCTIONS FOR COMPLETION OF THE BUDGET WORKBOOK							
STEP #1 Enter the Secondary and Postsecondary Basic and Reserve totals from yo							
consortium allocation letter in the yellow cells above.							
Enter Budget Line Items on the Basic Funding SEC 428 Worksheet.							
	A. Enter the consortium name in cell A1.						
	B. Select appropriate UFARS code using arrow to the right of the cell.						
	C. Enter a description of the item.						

STEP #2	D. Enter the dollar amount under the appropriate Narrative column (#1-10). D. If budgeting an amount for administrative costs, not to exceed 5% of basic award, (ex: general office support costs related to grant administration, not grant programming and services to schools), enter the amount in the yellow cell at the bottom of column L.
	F. At the bottom of each Narrative column, identify which uses of funds are represented in the amounts budgetedby typing an "X" in the box across from each applicable question. If no amounts are budgeted for a narrative, check the box for "Not applicable."
STEP #3	Enter Budget Line Items on the Reserve Funding SEC 475 worksheet. A. Select appropriate UFARS code using arrow to the right of the cell. B. Enter a description of the item. C. Enter the dollar amount under the appropriate column. If you enter an amount in column F, enter the new POS being developed/funded in cell F4. D. If budgeting an amount for administrative costs, not to exceed 5% of basic award, (ex: general office support costs related to grant administration, not grant programming and services to schools), enter the amount in the yellow cell at the bottom of column G.
	F. At the bottom of each Narrative column, identify which uses of funds are represented in the amounts budgetedby typing an "X" in the box across from each applicable question. If no amounts are budgeted for a narrative, check the box for "Not applicable."
STEP #4	Complete the Budget Narrative SEC worksheet Follow instructions on the worksheet.
STEP #5	Enter Budget Line Items on the Basic Funding POSTSEC worksheet. A. Enter the item name. B. Enter a description of the item. C. Enter the dollar amount under the appropriate column. D. If budgeting an amount for administrative costs, not to exceed 5% of basic award, (ex: general office support costs related to grant administration, not grant programming and services to schools), enter the amount in the yellow cell at the bottom of column L.
	F. At the bottom of each Narrative column, identify which uses of funds are represented in the amounts budgetedby typing an "X" in the box across from each applicable question. If no amounts are budgeted for a narrative, check the box for "Not applicable."
STEP #5	Enter Budget Line Items on the Reserve Funding POSTSEC worksheet. A. Enter the item name. B. Enter a description of the item. C. Enter the dollar amount under the appropriate column. D. If budgeting an amount for administrative costs, not to exceed 5% of basic award, (ex: general office support costs related to grant administration, not grant programming and services to schools), enter the amount in the yellow cell at the bottom of column G. F. At the bottom of each Narrative column, identify which uses of funds are represented in the amounts budgetedby typing an "X" in the box across from each applicable question. If no
STEP #6	amounts are budgeted for a narrative, check the box for "Not applicable." Look at Rows 48 and 50 of the Summary Worksheet; dollar amounts should be zero. If there is a positive or negative amount listed, recheck the amounts you entered previously on the Basic and Reserve funding tabs.
STEP #7	Upload your completed budget spreadsheet to your state application Sharepoint site.

(1) DO NOT enter in Green or Blue cells. (2) Insert rows as needed above the green "Subtotal" rows. (3) You may DELETE unused, unshaded rows but DO NOT delete any Green or Blue shaded rows. (4) ENTER info in YELLOW cells.

SECONDARY Narrative for Perkins V Application

Describe how your consortium plans to use your Perkins award on **Personnel expenditures (100s and 200s).** Narrative for <u>each expenditure</u> requested should include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which narrative(s) requested item is applied to; and (4) need identified in CLNA addressed with the expenditure.

Funds will be allocated to cover personnel expenses toward a Career & Technical Education Coordinator who will serve as the Secondary Perkins Coordinator. The funds will cover the salary and employee benefits of the Coordinator and will be drawn from Narrative 10, Governance. The Coordinator will be responsible for continuing the work in the Region, as identified in the CLNA. It is essential to support the Coordinator to ensure the progress of the work.

Describe how your consortium plans to use your Perkins award on **Services and Subawards expenditures (300s).** Narrative for <u>each expenditure</u> requested should include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which narrative(s) requested item is applied to; and (4) need identified in CLNA addressed with the expenditure.

Narrative 2 \$66500 Career Navigator Coordination, support and expand programs of study, continued Regional Career Exploration. CLNA feedback was strong in continuing career exploration events and activities from students to counselors to teachers and administration. Our rural students need to have access to these opportunities.

Narrative 4 \$12500 The CLNA response from CTE teachers and industry partners indicates the need for continued support of industry-recognized credentials for students in a variety of CTE programs. Industry-recognized credentials have shown to be a valuable tool for our students as they enter the workforce. From CNA to OSHA10, these credentials look great on a student's resume.

Narrative 5 \$11000 Special Populations. After the very successful pilot of our Career Exploration @ South Central College in partnership with the Uniquely Abled Academy, we are now implementing this into our work as standard practice. This came through loud and clear on the CLNA from our Counselors and Special Education partners. We will also use these funds to support the career exploration activities of our ALC programs. Because ALL students should be exploring and digging into what they want to do after high school.

Narrative 6 \$11,500 Work Based Learning is still a hot topic in our Region. Continued work will be done to connect our rural districts to career exploration, work experiences, and their local business and industry partners. Our CLNA indicated that this was lacking in some areas, as did our performance indicators. There is work being done in our Region that supports Workforce Development Coordinators and a Career Z Challenge grant through the DOE has shown that we have an identity crisis with WBL.....because no one knows what it is and we all call it something different.

Narrative 7 \$17,500 Our CLNA told us that college credit is valuable from a wide variety of respondents. Similar to our identity crisis with Work Based

SECONDARY Narrative for Perkins V Application

scribe how your consortium plans to use your Perkins award on Supplies and Materials expenditures (400s). Narrative for <u>each expenditure</u> requested ould include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which narrative(s) requested item is applied to; and (4) need in CLNA addressed with the expenditure.
scribe how your consortium plans to use your Perkins award on Equipment/Capital expenditures (500s). Narrative for <u>each expenditure</u> requested should lude: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which narrative(s) requested item is applied to; and (4) need in CLNA addressed with the expenditure.

SECONDARY Narrative for Perkins V Application

Describe how your consortium plans to use your Perkins award on Federal and Nonpublic Indirect Cost (895). No more than 5% of Basic total, and no more than 5% of Reserve total, can be spent for indirect costs.
Basic Indirect \$16,331.96 Reserve Indirect \$3208.79
Describe how your consortium plans to use your Perkins award on Reserve expenditures (from 475 tab). Narrative for <u>each expenditure</u> requested should include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which priority (POS or Gaps) requested item is applied to; and (4) need identified in CLNA addressed with the expenditure.
Our reserve funds will be used to support the TEC Network which provides industry relevant equipment and training for our rural districts, the Big Ideas Trailer and we will also use these funds to support career connected learning and how to connect our CTE and Core teachers to make learning more meaningful and relevant. A common thread in our Region's CLNA was career connected learning and how to provide access and opportunities for ALL of our students. Our rural districts are needing support.

POSTSECONDARY Narrative for Perkins V Application

Describe how your consortium plans to use your Perkins award on **Personnel expenditures.** Narrative for <u>each expenditure</u> requested should include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which narrative(s) requested item is applied to; and (4) need identified in CLNA addressed with the expenditure.

- (1) Postsecondary Perkins Coordinator Salary and Benefits (2) \$22,326.98 (3) Narrative 10 (4) Serves the Perkins consortium as postsecondary coordinator and Perkins advisory co-chair
- (1) Postsecondary Secondary Relations/Perkins Administrative Assistant Salary and Benefits (2) \$45,081.30 (3) Narrative 10 (4) Serves the administrative assistant to the Secondary Relations/Perkins office and provides significant support in the organization, record keeping, and budgetary maintenance of Perkins operations.
- (1) Career Navigator Assistant Salary and Benefits (2) \$38,077.15 (3) Narrative 2 (4) Serves the Perkins consortium as the coordinator for the Career Navigator program and other career navigation events organized by the South Central Perkins Consortium
- (1) Postsecondary Dual Enrollment Pathways/Transitions Coordinator Salary and Benefits (2) \$41,698.64 (3) Narrative 7 (4) Serves the Perkins consortium as a resource for students who are moving through and transitioning into CTE pathway programs via dual enrollment.
- (1) Postsecondary Employer Engagement Coordinator Salary and Benefits (2) \$23,423.68 (3) Narrative 6 (4) Supports postsecondary work-based learning opportunities

Describe how your consortium plans to use your Perkins award on **Equipment expenditures.** Narrative for <u>each expenditure</u> requested should include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which narrative(s) requested item is applied to; and (4) need identified in CLNA addressed with the expenditure.

addressed with the expenditure.

No postsecondary equipment expenditures are currently budgeted.

POSTSECONDARY Narrative for Perkins V Application

Describe how your consortium plans to use your Perkins award on **Non-Personnel expenditures.** Narrative for <u>each expenditure</u> requested should include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which narrative(s) requested item is applied to; and (4) need identified in CLNA addressed with the expenditure.

- (1) Career Exploration (2) \$6,000 (3) Narrative 2 (4) Support for expenses related to hosting Career Navigator program events and other career exploration experiences for students throughout the fiscal year. This budget item is supported through CLNA Element 5.
- (1) Support for Programs of Study (2) \$6,000 (3) Narrative 2 (4) Funding will be used to directly support South Central postsecondary programs of study and career exploration events, including Career Navigator. Perkins postsecondary leadership work collaboratively with program faculty to identify opportunities to support their programs. FY26 strategies will include the purchase of virtual reality resources and other innovative tools that will support learning spaces within postsecondary POS. This budget item will also support faculty duty days to support events that take place outside of faculty contract time. This budget item is supported through CLNA Element 1.
- (1) WIOA (2) \$1,500 (3) Narrative 3 (4) Supports WIOA partnership opportunities through regional workforce centers. This budget item is supported through CLNA Element 5.
- (1) Integrated Academic/Technical Skills (2) \$2,000 (3) Narrative 4 (4) Funds will support the integration of Technical Skill Assessments (TSAs) and This budget item is supported through CLNA Element 2.
- (1) Special Populations (2) \$2,000 (3) Narrative 5 (4) Students who represent special populations will be supported with resources (staff support, external speakers, translation services, etc.) and collaborative partnerships with SCC's Academic Support Center and Office of Diversity, Equity and Inclusion among other regional efforts to serve and provide opportunity for all students to explore, pursue, and succeed in career and technical education. This budget item is supported through CLNA Element 3.

Describe how your consortium plans to use your Perkins award on **Federal and Nonpublic Indirect Cost (Administration).** No more than 5% of Basic total, and no more than 5% of Reserve total, can be spent for indirect costs.

Administrative/Indirect Costs (4-5%) \$11,005.67 (basic) and \$3,089.31 (reserve) - Narrative 10 and 11 - Supports consortium operations aligning with all five CLNA elements

Describe how your consortium plans to use your Perkins award on **Reserve expenditures (from Reserve tab).** Narrative for <u>each expenditure</u> requested should include: (1) item/expenditure requested; (2) budget amount requested; (3) identification of which priority (POS or Gaps) requested item is applied to; and (4) need identified in CLNA addressed with the expenditure.

- (1) POS/CTE Programs (2) \$5,000 (3) Narrative 2, 6, 7 (4) Expenses will support faculty compensation for curriculum development that will be used to support the Health Science Mobile Lab

 (1) POS/CTE Programs (2) \$30,000 (3) 2, 6, 7 (4) Expenses will support a range of innovative initiatives designed to strengthen and modernize programs of study, driving meaningful improvements in both the quality and relevance of postsecondary POS.
- (1) POS/CTE Programs (2) \$5,000 (3) Narrative 2, 6, 7 (4) Expenses will support additional equipment and supplies needed to maintain the Health Science Mobile Lab
- (1) POS/CTE Programs (2) \$10,175.86 (3) Narrative 2, 4, 6, 7 (4) Expenses will support the initial costs associated with establishing an Electrician program

Completing the Program of Study Spreadsheet July 1, 2025 - June 30, 2026 (FY26)

South Central

There is information to complete on BOTH of the FY26 spreadsheet tabs. You will submit this completed document as a separate attachment along with your spring consortium plan. **NOTE: Using this document in Google Sheets or saving as an MS Excel document in a format other than the original may disable dropdown menu options.**

SRPOS Verification tab: Consortium leaders verify that each of the Programs of Study identified on the "SRPOS" tab meet

ALL SEVEN of the criteria required for a State-Recognized Program of Study. **Check the box on row 16 and insert consortium leader signatures on row 19.**

SRPOS tab: Consortium leaders may submit up to 15 Programs of Study that they verify below meet all seven

criteria for State-Recognized Programs of Study. This information will be posted for the public on the Minnesota State website to meet federal requirements for posting of POS information. Two pathways per POS may be identified. NOTE: Programs of Study that are "in development" are

not yet Programs of Study and should NOT be listed on this tab.

POS Funding tab: Consortium leaders may submit up to **10 Programs of Study** for which some level of Perkins

funding is identified/requested in the consortium plan. **Two pathways per POS may be identified.** Financial support requested for all POS included on this tab should be included in Narrative 2 of the Consortium Plan. Identify the priority of financial support designated (Priority 1 for highest priority, Priority 3 for lowest priority, or Reserve) using the dropdown options in row 11.

Consortia may wish to identify POS "in development" for funding on this tab.

Key Instructions: State-Recognized Programs of Study (SRPOS) tab

- * Dropdown menus are provided to complete POS information in rows 2 4, 6 9, and 10.
- * Changes to any dropdown selections in rows 2 4 or 6 9 should reset all dropdown options below in that column.
- * Two columns are provided for each SRPOS, to be used by those consortia who partner with more than one postsecondary institution, or who are aligning to more than one career pathway within the selected career cluster. You can identify two separate postsecondary institutions in the two POS columns along with the specific program name(s) offered by each institution. (The second column could also be used to identify a postsecondary partner with whom you have a brokering relationship.)
- **ROWS 2-3:** Do **NOT** manually enter information in row 2-3 cells highlighted in YELLOW--those cells should populate with information when you begin entering field, cluster, and pathway information in the first column of each SRPOS.
- **ROW 4:** Identify the career pathway for the POS. Note that the pathway cell in the second POS column is shaded BLUE. If you are working with a second postsecondary partner, or aligning to a second career pathway within the same cluster for your primary postsecondary partner, you can select a different "pathway" to align the second POS column. The postsecondary partners and postsecondary programs to which you can align your POS in rows 6-9 will be based on the pathway choices you identify in these two cells.
- **ROW 5:** Enter the CTE approved program code number for the programs aligned to each POS, followed by the school districts in your consortium with that approved program.
- **ROW 6:** A list of Minnesota State postsecondary institutions will appear as dropdown menu options based on the programs they offer aligned with the field/cluster/pathways you identify in rows 2-4. If you are partnering with two postsecondary institutions, use both columns for the POS to identify one in each column. If only one postsecondary partner, or only one career pathway being developed in the POS, leave the 2nd column blank. There is an option "Institution Not on List (See Narrative)." If the institution that you are partnering with is not on the list, use this option and provide the missing institution's name and college program in Narrative 2.
- **ROWS 7-9:** From the dropdown menu options of postsecondary programs offered by the institution you selected in row 6, identify in rows 7-9 up to THREE programs students prepare for through this POS. NOTE that these options will be different in the two POS columns (if you are partnering with two institutions) based on the different programs provided at each postsecondary institution.

Approved Work-based Learning Programs: S-RPOS MUST include authentic work-based learning at either the

secondary OR postsecondary level. For secondary WBL credentials (row 12), list the approved program-specific or diversified WBL program codes (and the school districts approved to offer them) through which a student could obtain WBL experience in that POS. If the consortium does not have any MDE-approved secondary work-based learning programs or postsecondary WBL opportunities, you may consider listing any embedded experiential learning available in approved CTE classes in the program of study.

Key Instructions: POS Funding tab

- * Dropdown menus provided to complete POS information in rows 2 4, 6 9, 10 11, and row 13.
- * See instructions above (rows 37-38) regarding YELLOW cells.
- * For any S-RPOS you intend to include on the Funding tab, you can **copy/paste** the applicable cells from rows 2-9 on the S-RPOS tab to those rows/cells on the Funding tab.

Use the same instructions as above for completing information in rows 2-9.

ROW 10: Select "Yes" or "No" from the dropdown menu to identify whether the POS was identified as a state-recognized POS on the SRPOS tab.

ROW 11--Funding Priority: Consortium leadership teams should identify the priority spending level of spending requests made in support of their Programs of Study. Consortia can **identify up to TEN (10) POS** on this tab. NO MORE THAN THREE (3) can be identified as Priority 1 (top level), and NO MORE THAN **THREE (3)** POS can be identified as Priority 2. Note that POS listed on this tab DO NOT need to be State-Recognized POS to be prioritized for funding; however, Narrative 2 of your consortium plan should clearly describe how this need and priority were identified to align with your CLNA.

Use the table below to assist in determining the funding priority level for each Program of Study:

Priority Level	Rationale
	Decree of Charles and the charles and the CINA finding. The case
	Program of Study represents a high priority workforce need in CLNA findings. These are
Priority 1	not necessarily the largest amounts to be spentsimply the highest priorities. The State
(no more than THREE POS)	Team would expect to see these among a consortia's earliest expenditures upon approval
LIST THESE POS FIRST	of their plan.
	Program of Study represents a workforce need for continued support, possibly to provide
Priority 2	industry-standard equipment or innovate existing program delivery. The
(no more than THREE POS)	State Team would expect to see these expenditures made ahead of Priority 3 items as the
LIST THESE POS NEXT	consortium team would have determined them to be of higher priority.
Priority 3	Program of Study represents an established program area in need of supports
(either 3 POS, or 4 if no Reserve)	
LIST THESE POS NEXT	including professional development and supplemental curriculum materials.
Reserve Funds (OPTIONAL)	Use of Reserve funding to develop a new POS (i.e., development to establish new POS or
LIST AS FINAL POS IF INCLUDED	to develop coordination and alignment of secondary and postsecondary programs which
AS A POS PRIORITY	exist at one level but not at the other). If consortium plan does not include use of reserve
	funds for new POS development, do not identify any POS with this label on the POS
	funding tab.

* [OPTIONAL] Row 12--Interdisciplinary CTE-Related Courses: If one or more schools in the consortium offers an introductory course in an approved program area different than the programs listed in row 5 aligned with the identified field/cluster/pathway, enter the following: School Name--Alternative Career Field Program #--Course #. Examples could include: Agribusiness course listed under Business; T&I Welding course listed under Agriculture Focus should be on courses that may be included in equipment requests for the primary CTE program in the POS. (Contact MDE Program Specialists if you have questions on listing courses in these cells.)

State-Recognized Program of Study Verification July 1, 2025 - June 30, 2026 (FY26)

South Central Consortium

There are seven minimum criteria that must be met for identification as a State-Recognized Program of Study: 1. Course standards accurately align to the academic, technical, and employability skills learners must master for entry and success in a given career pathway.
2. Program of Study incorporates active involvement from an integrated network of partners.
3. Secondary program(s) meets MDE program approval requirements and incorporate courses that lead to postsecondary credits/credentials.
4. Postsecondary academic program meets Minnesota State board policy and Higher Learning Commission requirements.
5. Materials, Equipment and Resources used in the program reflect current workplace, industry, and/or occupational standards.
6. Incorporates authentic work experiences at the secondary and/or postsecondary level that are valued by industry.
7. Program of Study development, improvement and advocacy are supported by findings from a comprehensive local needs assessment.
The State-Recognized Programs of Study submitted by our consortium meet all seven of the minimum criteria identified above. [Insert "X" in the box to confirm]
