What if I am already logged into my campus Office 365/SharePoint site?

The page may display a “that didn’t work” message, stating your campus domain can’t be found in the mnsu.sharepoint.com directory. In this case, do one of the following:

1. **Click** the **Click here to sign in with a different account to this site** link to be signed out of your campus Office 365 account. Wait for the browser to sign you, and redirect your to the login page.
2. **Open** an InPrivate or Incognito browser window (or a different Internet browser where you are not signed into Office 365/SharePoint). With the Incognito or InPrivate browser window, which allows you to have to two separate Office 365/SharePoint sessions open at the same time. View the instructions in the links below for your specific browser:
   a. Internet Explorer 11
   b. Microsoft Edge
   c. Mozilla Firefox
