**Job Summary**

This position may reside in St. Paul or Waite Park, MN

The business systems specialist functions as part of a product support team whose purpose is to provide support for and maintain mission-critical human resources and financial applications for the state colleges and universities. These applications support administrative processes for 37 institutions, approximately 18,000 staff and faculty and 300,000 students in Minnesota. The responsibilities of the position include: providing tier-3 support for questions and issues raised by end-users, developing and maintaining business process and application expertise, creating and delivering end-user documentation and training materials, verifying software functionality, and managing required maintenance. Knowledge of HRIS, financial systems and experience in a higher education environment is desirable but not necessary.

**About Minnesota State**

Minnesota State is the largest single provider of higher education in the state. With 37 institutions, including 30 community and technical colleges and seven state universities, Minnesota State serves 64 percent of the state’s undergraduate student population.
We employ more than 15,900 dedicated faculty and staff focused on student success. We provide essential training and specialized certification options for business, industry, and professionals throughout Minnesota.

Benefits include excellent low cost and low deductible health and dental insurance, retirement package, tuition waiver at Minnesota State institutions (after three years of employment) and flexible working hours.

**Minnesota State System Office is proud to be a Minnesota Yellow Ribbon agency.**

**Minimum Qualifications:**

**Resume must reflect all minimum qualifications. Please enter your experience in chronological order, including the month and year of employment.**

- Four (4) years of experience providing end-user support for web-based and/or client-server business application software or using ISRS as an employee of a college or university administrative services office. A bachelor's degree in IT or related field will qualify as one year of experience
- Experience writing business software documentation sufficient to provide accurate, clear, and timely reference material to end users of application software
- Experience gathering, analyzing, and documenting business requirements sufficient to adequately describe necessary software enhancements
- Experience testing application software sufficient to provide reasonable assurance that products are free from defects
- Experience developing and delivering training for business systems, sufficient to train and support both novice and proficient users of software products
- Experience accessing relational databases sufficient to identify data integrity issues such as missing or inconsistent data, capture troubleshooting information, or help identify sources of software defects
- Experience using the MS Office product suite (or comparable) sufficient to create and maintain announcements, technical information, presentation materials, and software documentation

**Preferred Qualifications:**

- Technical skills in the following technologies/products:
  - Windows O/S
  - Common web browsers
  - Structured query language (SQL)
  - Query and reporting tools such as MS Access, Toad, Hyperion/Brio
  - SharePoint (or other collaboration tools)
  - Adobe Connect, MS Teams, Skype, Zoom (or other desktop sharing tools)
  - Cascade (or other content management tools)
  - Experience with customer relationship management or incident management tools
  - Experience supporting enterprise or large-scale application systems
• Experience giving formal presentations to business audiences
• Experience assessing skill gaps, individual competency, and job performance in order to design, implement and evaluate training, documentation and coaching initiatives for software products
• Experience working with Human Resources and/or Financial systems and administrative procedures in a higher education environment

**Additional Requirements:**

The successful candidate must submit to a background investigation prior to employment.

The background check may consist of the following components:
• SEMA4 Records Check (applies to current and past state employees only)
• Criminal History Check
• Employment Reference Check
• Social Security and Address Verification
• Education Verification

**Other Information:**

Employment information for this position can be found in its collective bargaining agreement or its plan document at [http://mn.gov/mmb/employee-relations/labor-relations/Labor](http://mn.gov/mmb/employee-relations/labor-relations/Labor).
