Job Summary

Telework is available and negotiated at the time of hire.

This position performs technical analysis, design, and development within the Reporting and Analytics team in the system office – ITS division. The Reporting and Analytics team manages the Minnesota State system-wide Reporting and Analytics platform which provides data warehousing, data modeling and transformation, operational reporting, system-wide dashboards, and business intelligence services. This position is responsible for the design and development of business intelligence solutions including reporting, dashboards, relational and dimensional data models, ETL processes, and analytic data services pursuant to requirements negotiated with Minnesota State stakeholders to ensure they are provided timely, accurate, and meaningful business intelligence, analytic, reporting, and data services.

Specific Duties Include:

• Working in close collaboration with other team members and the team’s business partners, design, develop, and implement business intelligence dashboards and reports
using relational and dimensional data models, ensuring a high level of timeliness, accuracy, and applicability for our business partners.

- Working in close collaboration with other team members and the team’s business partners, design, develop, and implement relational and dimensional data models, ETL processes and data services, ensuring a high level of timeliness, accuracy, and applicability for our business partners.

- Together with other team members, support existing services by managing incidents, responding to requests for enhancements, supporting end-user training activities, and assisting support staff to ensure the team’s services continue to meet the business needs and remain stable and effective

**Minimum Qualifications**

Resume must reflect all minimum qualifications. Please enter your experience in chronological order, including the month and year of employment.

- Bachelor’s degree in an IT, computer science or management related field or equivalent combination of education and experience.

- Three years of experience working in information technology or related area developing business intelligence data models and developing business intelligence solutions.

- Experience translating business requirements into technical requirements, technical designs, and business intelligence solutions such as data models, ETL processes, reports, dashboards, and data services.

- Experience with project management principles sufficient to assist in planning projects, developing work plan and goals, and monitoring project progress.

- Strong communication and presentation skills, both written and verbal.

- Ability to develop effective working relationships with both technical staff and business partners.

- Effective written and verbal communication sufficient to ensure clear, accurate, concise and timely communications between team members and all stakeholders.

**Preferred Qualifications**

- Experience working with a geographically dispersed team.

- Experience with Microsoft’s business intelligence and reporting products.

- Experience working with Workday software and products.

- 1 or more years of experience working in higher education.
**Additional Requirements**

The successful candidate must submit to a background investigation prior to employment.

The background check may consist of the following components:

- SEMA4 Records Check (applies to current and past employees only)
- Criminal History Check
- Employment Reference Check
- Social Security and Address Verification
- Education Verification

In accordance with the Minnesota State Colleges & Universities (Minnesota State) Vehicle Fleet Safety Program, employees driving on college/university business who use a rental or state vehicle shall be required to conform to Minnesota State’s Vehicle use criteria and consent to Motor Vehicle Records check.

**Other Information:**

Employment information for this position can be found in its collective bargaining agreement or its plan document at [https://www.minnstate.edu/system/working/relations.html](https://www.minnstate.edu/system/working/relations.html)
