Job Summary:

Telework is available and negotiated at the time of hire.

This position performs technical analysis, design, and development within the Reporting and Analytics team in the system office – ITS division. The Reporting and Analytics team manages the Minnesota State system-wide Reporting and Data Services platform which provides data warehousing, data modeling and transformation, data integration, operational reporting, system-wide dashboards, and business intelligence services. This position is responsible for the design and development of business intelligence solutions including reporting, dashboards, relational and dimensional data models, ETL processes, and data services pursuant to requirements negotiated with Minnesota State stakeholders to ensure they are provided timely, accurate, and meaningful business intelligence, reporting, and data services.

About Minnesota State

Minnesota State is the largest single provider of higher education in the state. With 33 institutions, including 26 community and technical colleges and seven state universities, Minnesota State serves 64 percent of the state’s undergraduate student population.
We employ more than 14,800 dedicated faculty and staff focused on student success. We provide essential training and specialized certification options for business, industry, and professionals throughout Minnesota.

Benefits include excellent low cost and low deductible health and dental insurance, retirement package, tuition waiver at Minnesota State institutions (after three years of employment) and flexible working hours.

Minnesota State System Office is proud to be a Minnesota Yellow Ribbon agency.

**Minimum Qualifications:**

**Resume must reflect all minimum qualifications. Please enter your experience in chronological order, including the month and year of employment.**

- Bachelor's degree in an IT, computer science or management related field or equivalent combination of education and experience.
- Three years of experience working in information technology or related area developing business intelligence data models, developing business intelligence solutions, experience designing, developing, and supporting technical data warehousing components such as database schemas and objects, and stored procedures.
- Experience translating business requirements into technical requirements, technical designs, and business intelligence solutions such as data models, ETL processes, reports, dashboards, and data services.
- Experience with project management principles sufficient to assist in planning projects, developing work plan and goals, and monitoring project progress.
- Ability to interact with multiple and diverse groups of people and a commitment to fostering a diverse working and learning environment.
- Strong communication and presentation skills, both written and verbal.
- Ability to develop effective working relationships with both technical staff and business partners.
- Effective written and verbal communication sufficient to ensure clear, accurate, concise and timely communications between team members and all stakeholders.

Minnesota State is unable to sponsor applicants for work visas. All applicants must be legally authorized to work in the US.

**Preferred Qualifications:**

- Experience working with a geographically dispersed team.
- Experience with Microsoft’s business intelligence and reporting products.
- Experience working with Workday software and products.
- 1 or more years of experience working in higher education.
**Additional Requirements:**

The successful candidate must submit to a background investigation prior to employment.

The background check may consist of the following components:

- SEMA4 Records Check (applies to current and past employees only)
- Criminal History Check
- Employment Reference Check
- Social Security and Address Verification
- Education Verification

In accordance with the Minnesota State Colleges & Universities (Minnesota State) Vehicle Fleet Safety Program, employees driving on college/university business who use a rental or state vehicle shall be required to conform to the Minnesota State Vehicle use criteria and consent to Motor Vehicle Records check.

**Other Information:**

Employment information for this position can be found in its collective bargaining agreement or its plan document at [http://mn.gov/employee-relations/labor-relations/Labor](http://mn.gov/employee-relations/labor-relations/Labor).
