Job Summary:

A hybrid work arrangement may be considered and would be negotiated at the time of hire.

This position directs specialized knowledge in career development, labor market information and education options in the context of the CAREERwise website and other Minnesota State web resources. The position requires experience in data management, web development, website content management, and technical guidance. With specialized knowledge and skills, this position is responsible for day-to-day operations, technical analysis and future planning activities of CAREERwise, as well as providing program recommendations, research and development activities, and estimates of maintenance and/or development costs.

About Minnesota State

Minnesota State is the largest single provider of higher education in the state. With 37 institutions, including 30 community and technical colleges and seven state universities, Minnesota State serves 64 percent of the state's undergraduate student population.

We employ more than 14,800 dedicated faculty and staff focused on student success. We provide essential training and specialized certification options for business, industry, and professionals throughout Minnesota.

The work location is in the heart of downtown St. Paul, right in the skyway system. Benefits include excellent low cost and low deductible health and dental insurance, retirement package, tuition waiver at Minnesota State institutions (after three years of employment) and flexible working hours.

Minnesota State System Office is proud to be a Minnesota Yellow Ribbon agency.

Minimum Qualifications:

Resume must reflect all minimum qualifications. Please enter your experience in chronological order, including the month and year of employment.

- Two-year post-secondary degree
- Five years work experience in web development, including some experience with web content management tools and languages, wire frame and mock-up software, and general knowledge of programming and markup languages.
- Demonstrated commitment to work with diverse clients, stakeholders and students, fostering a diverse working and learning environment.
- Experience with labor market or career information (basic knowledge of O*NET, CIP, SOC and other LMI taxonomies, e.g., occupational, educational, skill, and industry coding systems, labor market information, or career development).
- Experience in project management.
- Effective written and verbal communication skills sufficient to work with subject matter experts, administrators, and IT professionals or writing for commercial publications or websites.

Minnesota State is unable to sponsor applicants for work visas. All applicants must be legally authorized to work in the US.

Preferred Qualifications:

- Bachelor's degree
- Seven years of work experience in website design or marketing/communications.
- Experience with multimedia development applications, Web 2.0 applications, web services, database design, spreadsheet, word processing, and presentation software.
- Experience using programming languages (JavaScript, and markup (xHTML, XML); content management systems (Cascade Server and WordPress); web development software (Dreamweaver, Fireworks, Flash, Access, Camtasia, Tortoise SVN).
- Ability to become proficient in proprietary software tools (e.g., RightNow Technologies, ZOH0) sufficient to train users and integrate with other applications.

- Knowledge of database management

Additional Requirements

In accordance with the Minnesota State Colleges & Universities (Minnesota State) Vehicle Fleet Safety Program, employees driving on college/university business who use a rental or state vehicle shall be required to conform to Minnesota State's Vehicle use criteria and consent to Motor Vehicle Records check.

Other Information:

Employment information for this position can be found in its collective bargaining agreement or its plan document at <http://mn.gov/employee-relations/labor-relations/Labor>.
