Job Summary

Telework availability and options will be negotiated at time of hire.

This position exists to ensure that the business needs of the faculty, staff, administrators and students of the 33 colleges and universities in the Minnesota State system are understood and clearly documented so that the Information Technology Services Division can provide enterprise wide solutions to meet those needs. This position works with campus and system office staff in order to understand the structure, policies and operations of the colleges and universities and to recommend solutions that enable the system as a whole to achieve its goals.

Specific Duties Include:

- Following system and industry standards, perform business analysis activities with stakeholders, including eliciting, documenting, managing, analyzing and communication business requirements, and negotiating the resolution of business practice variations among to ensure that the enterprise application suite allows the colleges and
universities to provide policy, regulatory and legally compliant services to faculty, staff and students.

- Coordinate the development and design of IT solutions.
- Perform project management functions as necessary, to ensure that the project vision, scope and requirements meet the needs of college and university faculty, staff, administrators and students.
- Ensure solutions are in compliance with all system, state, and federal policies, laws and regulations.

**Minimum Qualifications**

Resume must reflect all minimum qualifications. Please enter your experience in chronological order, including the month and year of employment.

- Demonstrated commitment to work with diverse clients, stakeholders and students, fostering a diverse working and learning environment.
- Five (5) years of business analysis experience working directly with business lines performing activities such as business process modeling, data flow diagramming, requirements elicitation, analysis and documentation.
- Knowledge of project management principles sufficient to determine project goals and objectives, establish development schedules, lead a team to complete development tasks, and monitor and evaluate progress.
- Demonstrated business analyst skills sufficient to elicit and analyze business requirements and deliver software solutions that meet end user needs.
- Business process modeling skills sufficient to elicit and analyze business requirements and deliver software solutions that meet end user needs.
- Presentation and facilitation experience sufficient to interact with a broad range of stakeholders in participatory decision making.
- Demonstrated ability to effectively communicate complex technical ideas and procedures to both technical and non-technical staff.

**Preferred Qualifications**

- Bachelor’s degree in business, information technology or a related field.
- ITIL Foundations certification.
- 1 year experience completing business analysis activities in an Agile/Iterative software development environment.
- 1 year experience working the public sector or higher education environments.
- Certified Business Analysis Professional (CBAP) certification.
- Demonstrated organizational skills sufficient to lead complex software development efforts.
- Demonstrated skill in communicating through the use of technology to facilitate meetings, gather requirements and lead projects with geographically dispersed participants.
- Demonstrated skill with relational databases sufficient to create queries and analyze data for patterns and potential issues.
Additional Requirements

The successful candidate must submit to a background investigation prior to employment.

The background check may consist of the following components:

- SEMA4 Records Check (applies to current and past employees only)
- Criminal History Check
- Employment Reference Check
- Social Security and Address Verification
- Education Verification

In accordance with the Minnesota State Colleges & Universities (Minnesota State) Vehicle Fleet Safety Program, employees driving on college/university business who use a rental or state vehicle shall be required to conform to Minnesota State’s Vehicle use criteria and consent to Motor Vehicle Records check.
