Saint Cloud State University RFP for SCSU at Alnwick Provider Partner

ADDENDUM NO. 1

The Proposal due date of Monday, November 8, 2021 by 3:00 p.m. CST will not change as a result of this Addendum.

CLARIFICATIONS/QUESTIONS:

1. Will the contractor for Alnwick would be able to open it up to other Universities to invite students to participate or would be simply be serving as the provider (risk management, etc) for St. Cloud students exclusively? Could you provide more context around the provider role? The RFP would allow the provider to send any student from any university to Alnwick through their services.

2. The RFP states that SCSU hopes to grow the program - what would growth look like? More students during the semester or more programming throughout the year? It looks like you have room for approximately 70-80 students. Are you hoping to include more students than that during any given time? Growth in the context as you have stated. Both in student numbers and programming and the kind of programs through the year. We have 62 beds so it would be good if they indicated in their RFP how many beds they are looking to reserve per-term.

The above ADDENDUM shall be attached to and become part of the bid. Receipt of this Addendum shall be acknowledged by including it with the bid. Failure to do so may subject BIDDER to disqualification.

END OF ADDENDUM NO. 1
